Editorial

As we approach the end of another incredible school year, we, the editors of the student newsletter, want to take a moment to reflect on the amazing journey we've all shared. This year has been filled with unforgettable events, challenges, and victories. Each of us has contributed to our school's vibrant and dynamic spirit, whether through academic achievements, creative pursuits, or extracurricular endeavours.

Looking back, we deeply thank our teachers, staff, and administrators. Their dedication, support, and guidance have created a nurturing environment that inspires us to reach our full potential. Special thanks go to our newsletter team for their passion and effort in bringing engaging content to life, month after month.

Wishing you a path filled with growth, joy, and the spirit of collaboration that makes our school so special.

Finally, we want to thank you, our readers and contributors. Your participation has made it all possible, whether writing articles, drawing, or taking pictures.

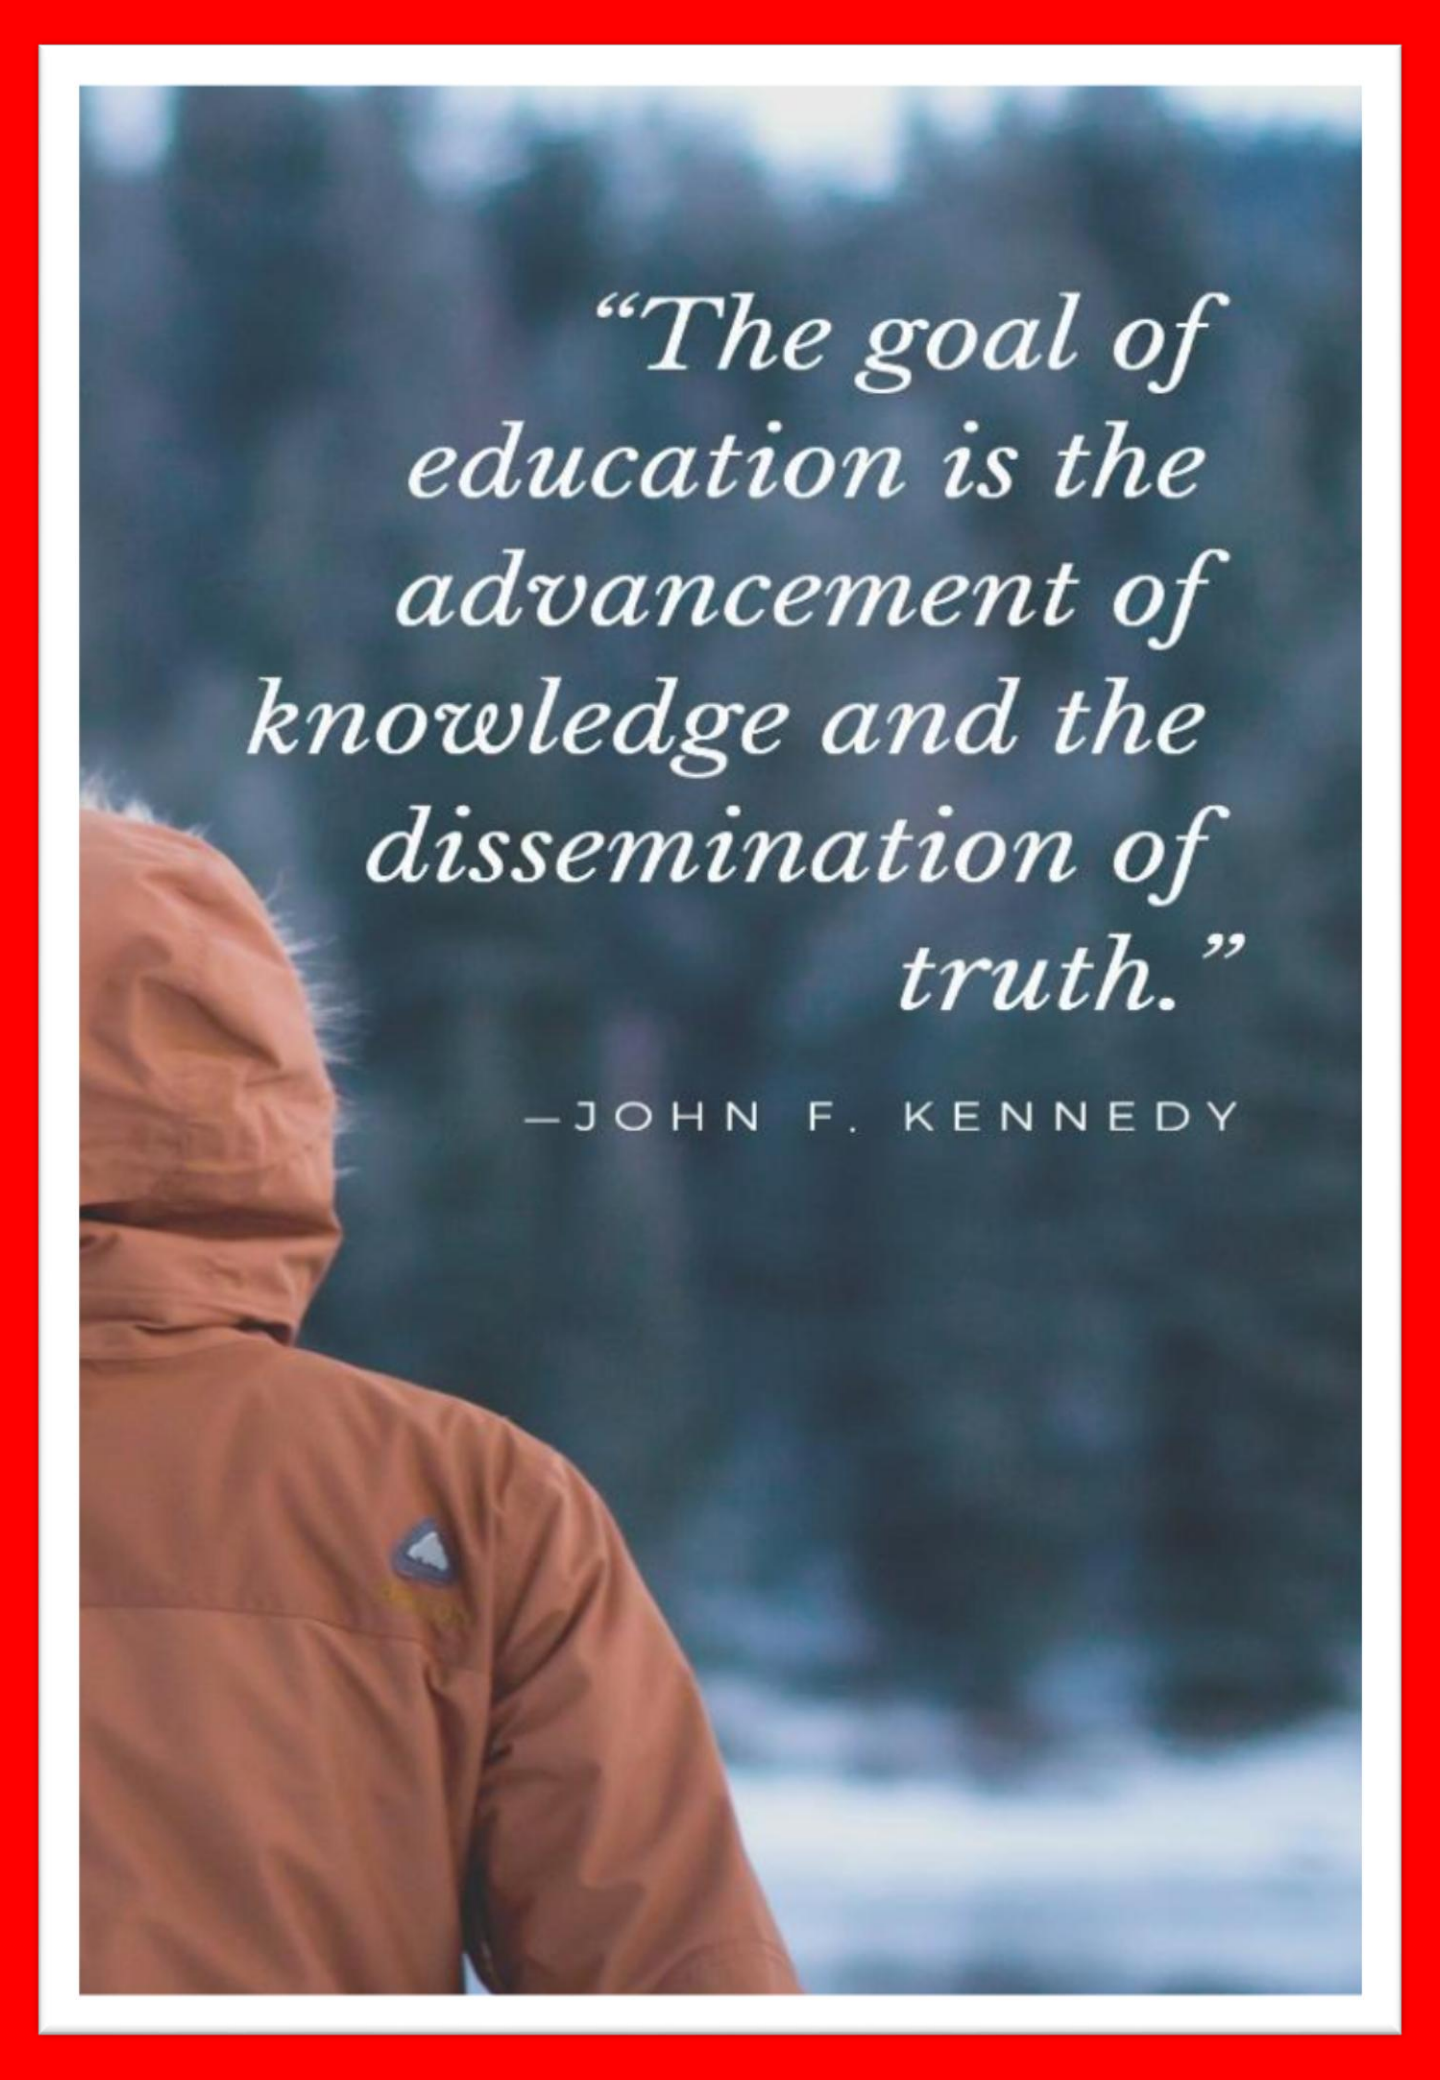

As we head into summer break, let's take a moment to celebrate our achievements and the bonds we've strengthened as a school community. Thank you for an extraordinary year. Here's to more adventures and shared successes ahead!

ENGLISH

Cleaning the Playground

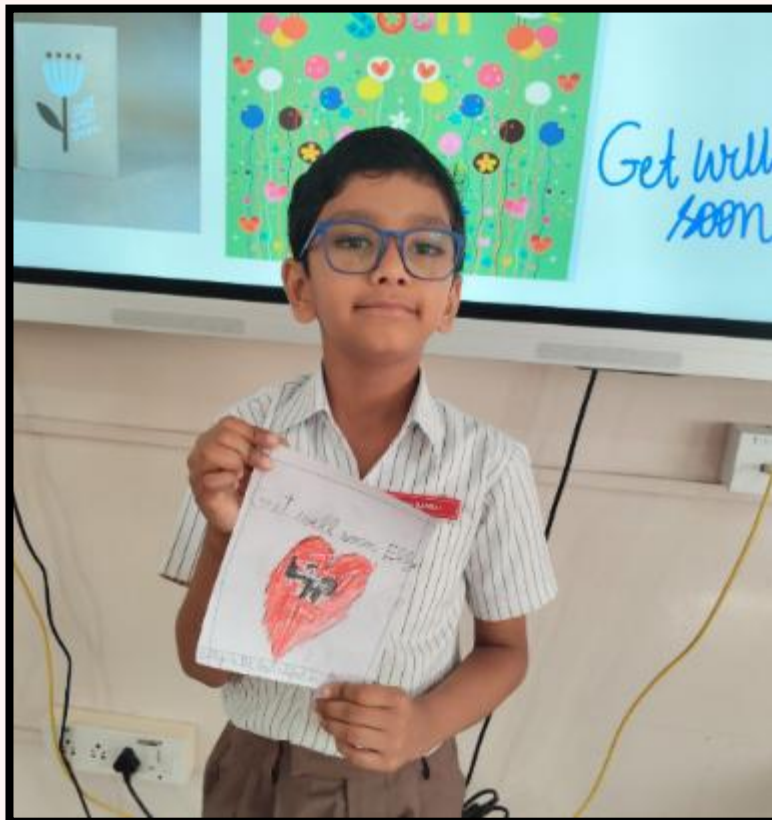

Students of Grade 1 enjoyed creating a poster for the lesson 'Cleaning the Playground', highlighting the benefits of cleanliness. They learned to keep surroundings like parks, playgrounds, and streets clean. Through this activity, they understood the importance of cleanliness. They also posed for pictures during the activity.

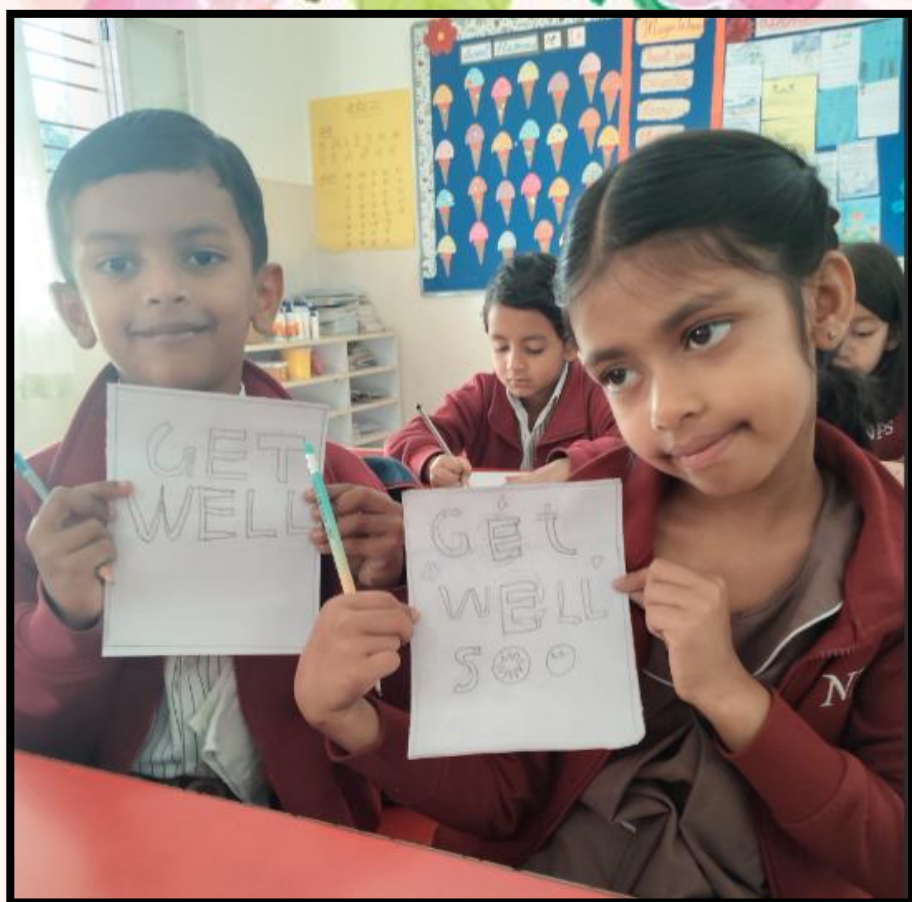

Kindness in Action

In the lesson, 'Jijo and Elly', an elephant calf is hurt and the keeper, Jijo takes care by feeding and bathing little Elly. The students of Grade 1 read the lesson and fully understood the value of caring. They made a card which read 'Get well soon Elly.' They knew no boundaries in expressing their affection towards little Elly. They did it by singing the rhyme 'Elly, the elephant goes this way and that'. They exhibited a lot of enthusiasm and love for the animal.

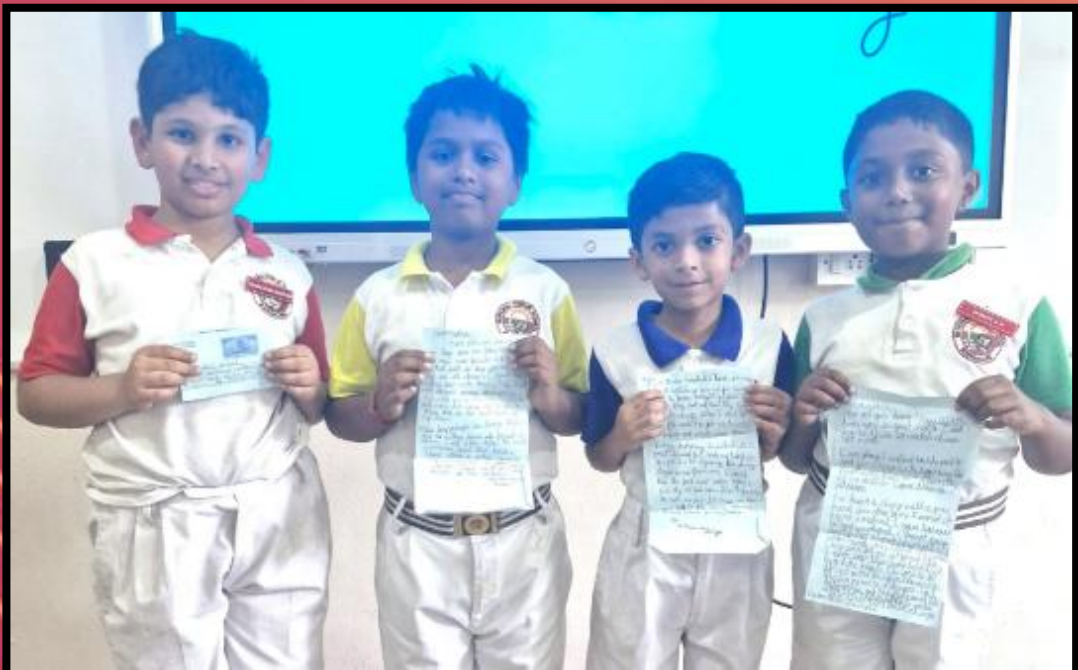

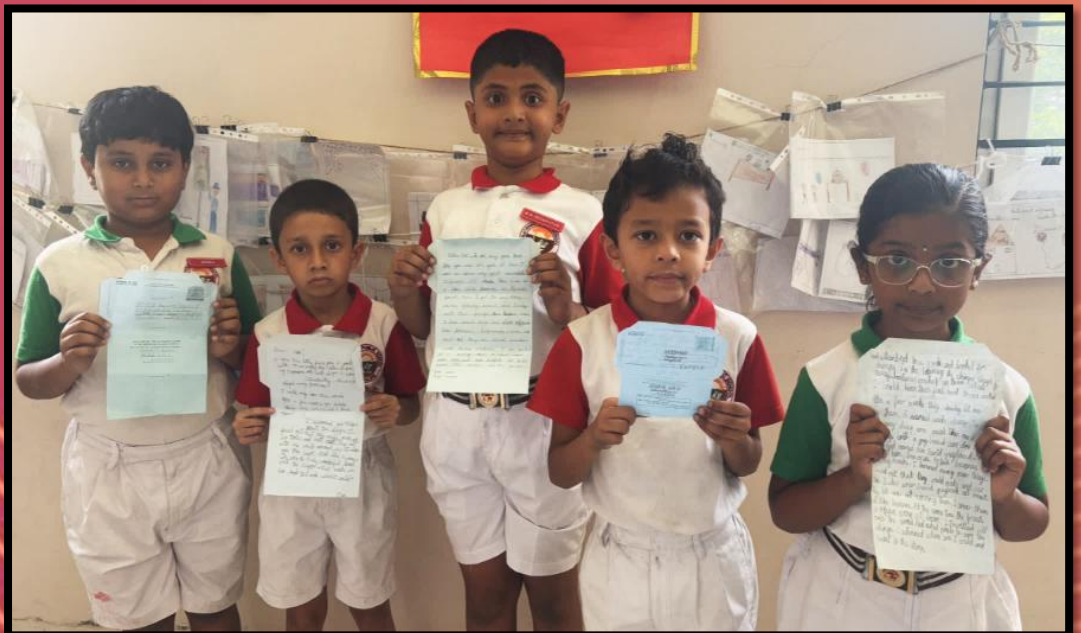

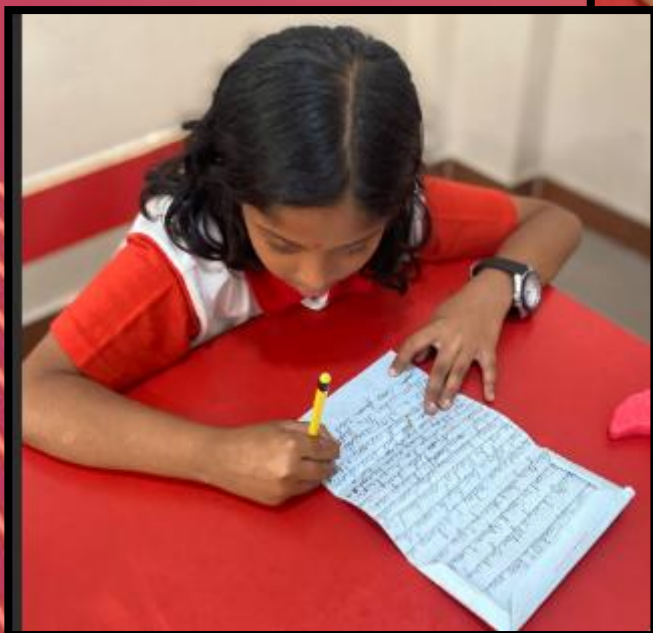

Connecting Minds

Studying animal behavior is crucial because it allows us to comprehend their ecosystem. Additionally, it offers insights into our own behaviors. In an imaginative activity, students of Grade 2 were asked to envision themselves as Jane, the protagonist of the story, and write a letter to a friend describing her work in Gombe, Africa. They composed the letter on an inland letter, connecting them to the communication methods used before the advent of the internet. This exercise helped students appreciate the historical context of communication while engaging with the subject matter creatively.

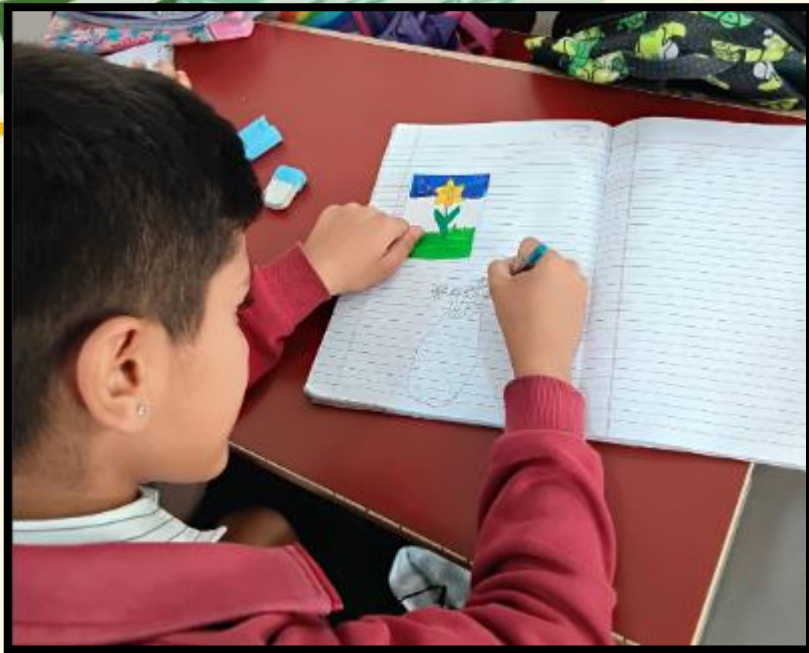

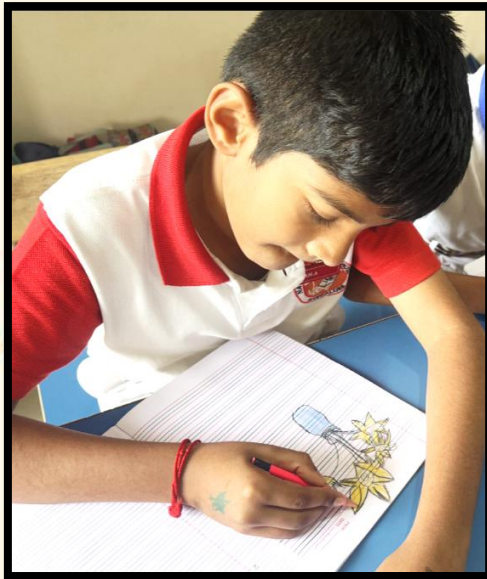

Daffadowndilly

Spring arrives after winter, bringing with it blooming flowers and green leaves on trees and plants. Students of Grade 2 selected various flowers and crafted a vibrant flower vase. This activity resonated with them as they observed the seasonal transition happening around them in the city.

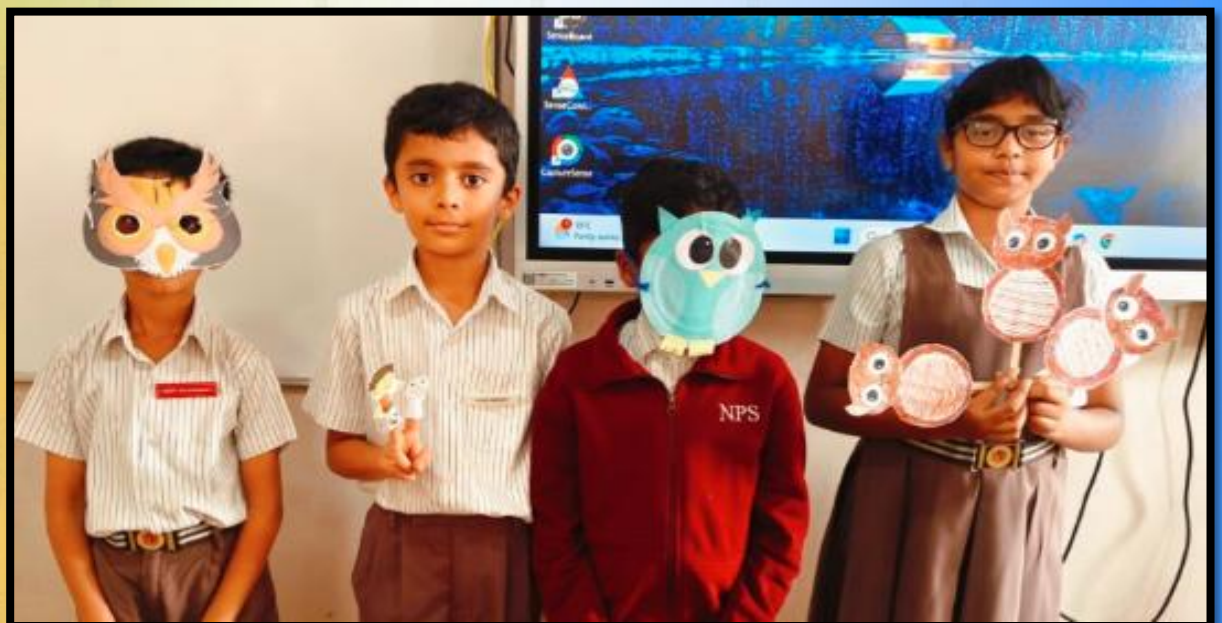

'Afraid of the Dark'-Role Play

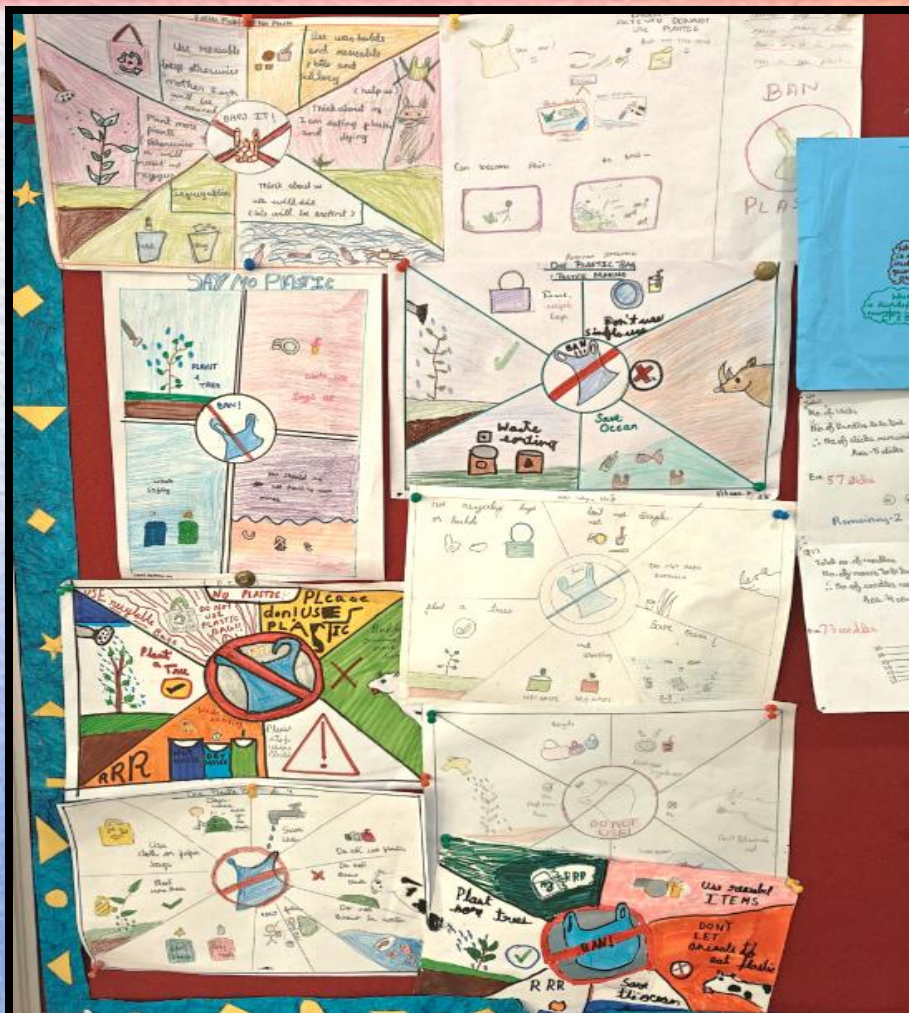

Class 3 students brought 'Afraid of the Dark' to life through a role-play activity. Wearing owl masks and using finger puppets. They enthusiastically enacted the story's characters. This interactive session enhanced their comprehension, creativity, and acting skills while building confidence in expression.

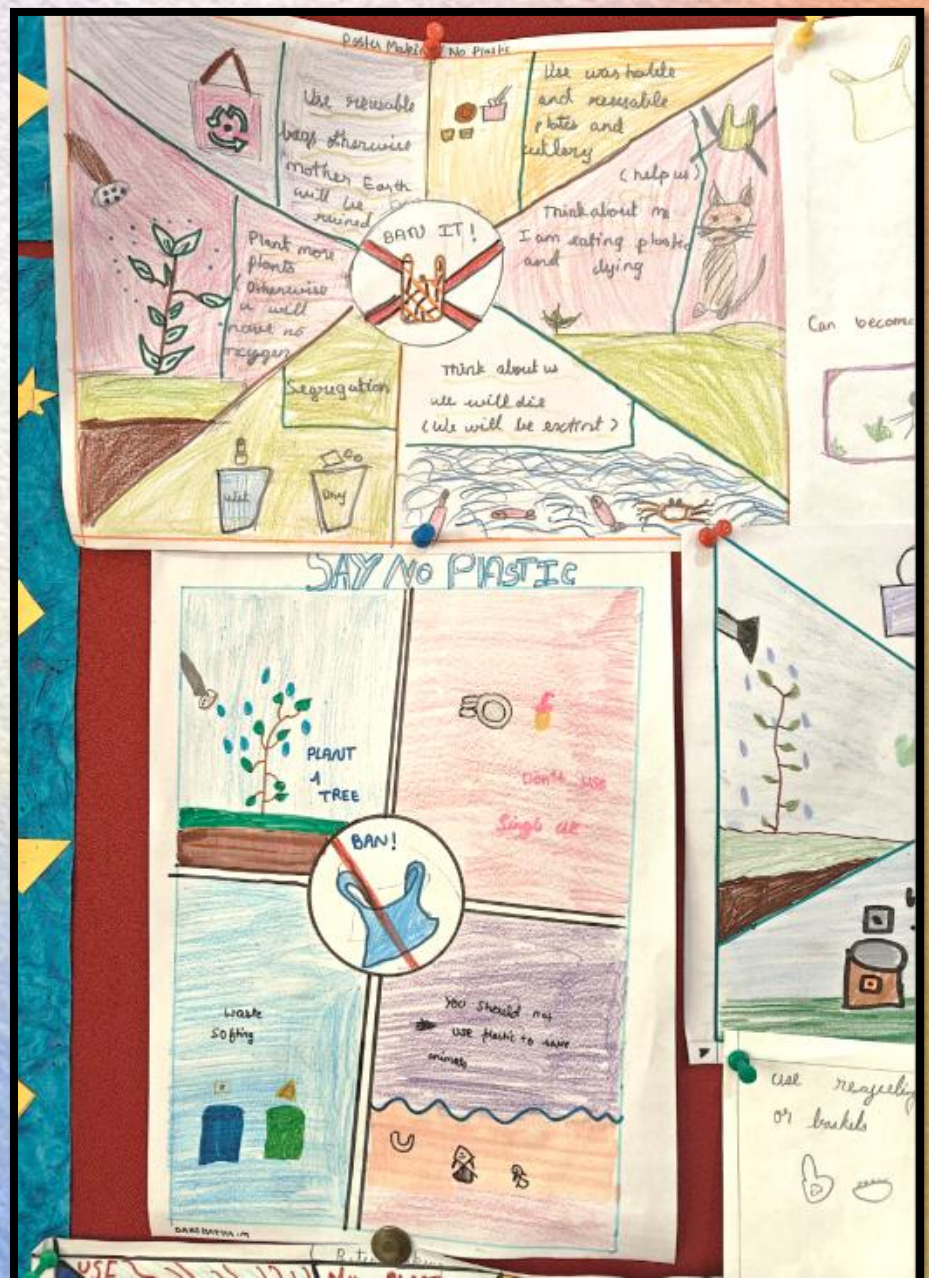

Poster Making-One Plastic Bag

Class 3 students enthusiastically created posters on 'Say No to Plastics', inspired by the lesson 'One Plastic Bag'. Students used colors, slogans, and illustrations to highlight plastic pollution and eco-friendly alternatives. This activity helped students understand the importance of reducing plastic use and protecting the environment. It also enhanced their creativity and awareness of sustainable practices.

Show and Tell

Students of Grade 4 were fascinated to research on the ancient games of India for the lesson 'Hopscotch'. They proudly presented their research on various forgotten non-technological games. This activity enriched their knowledge about India and inspired them to play these games too.

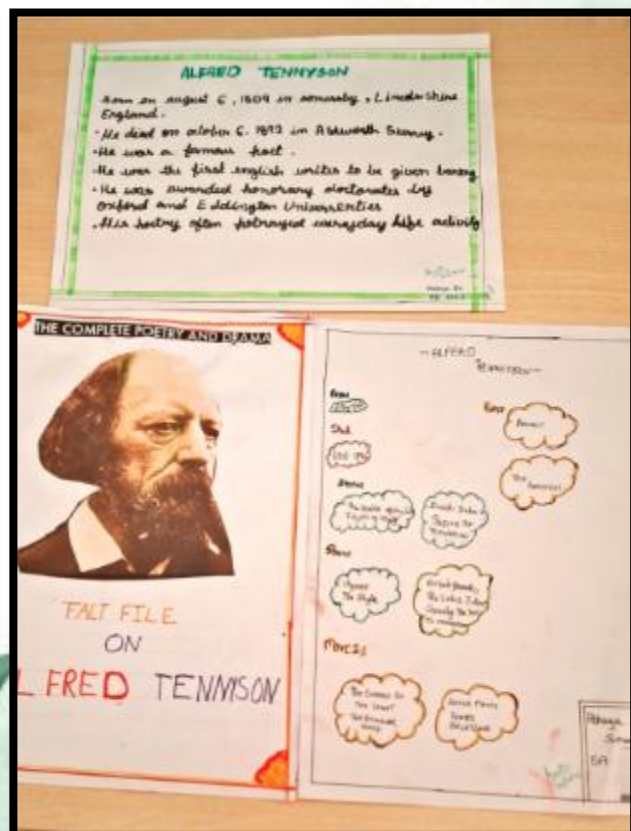

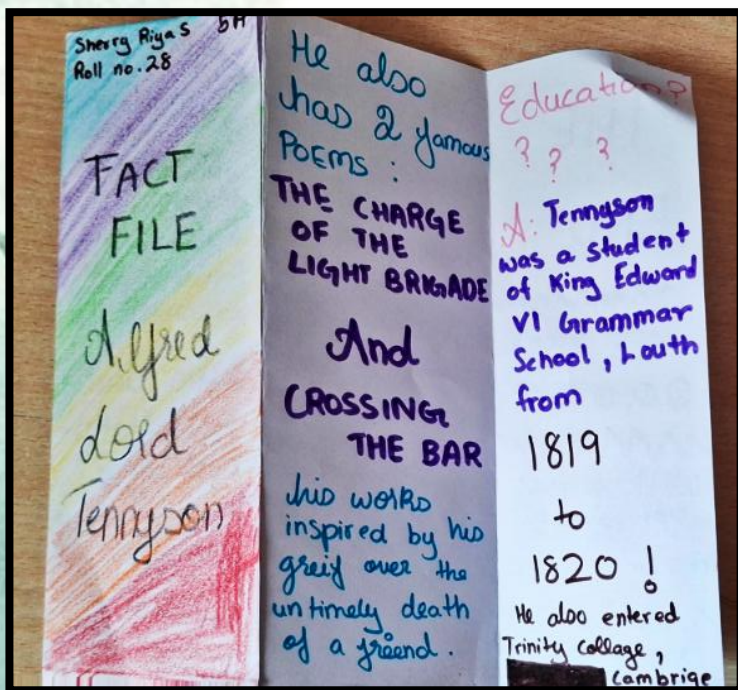

Infographic Web Chart

Students of Grade 4 designed an infographic web chart for the lesson, 'Black Blizzard,' highlighting safety measures during natural disasters. They visually illustrated essential precautions for earthquakes, floods, cyclones, and fires, thereby enhancing their grasp of disaster management. This activity nurtured creativity, critical thinking, and awareness of safety protocols.

Fact File

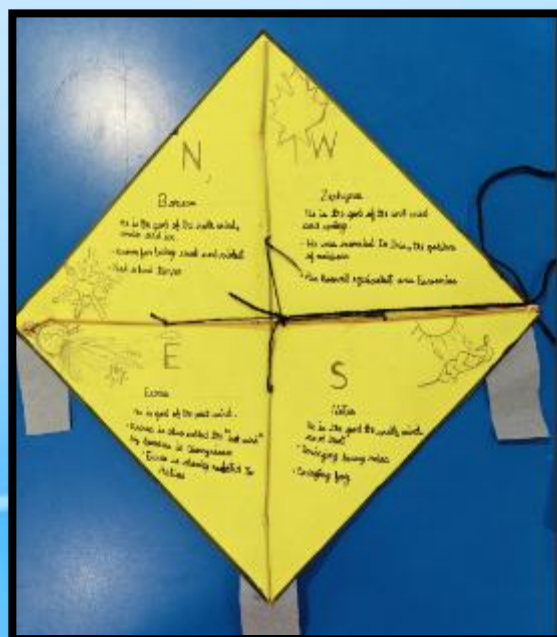

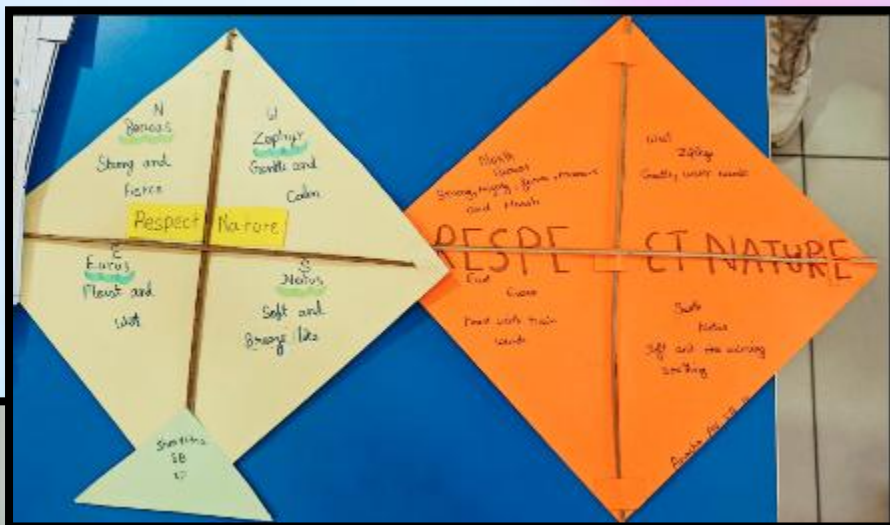

Students of Grade 5 created a fact file on Lord Tennyson as part of their English lesson, focusing on his poem, 'Ring Out, Wild Bells'. They researched Tennyson's life and work, gaining insights into his contributions to literature and the theme of the poem. Through this activity, students not only learned about the poet's background but also explored the poem's message of hope, renewal and the passage of time. It was an enriching way to connect literature with history and deepen their understanding of Tennyson's legacy.

Four Great Winds

Students of Grade 5 participated in a creative kite-making activity inspired by the lesson, 'Maui's Kite'. They designed and decorated kites while learning about the Four Great Winds—strong and fierce, gentle and warm, moist with rain, soft and calming. This hands-on experience made learning engaging and helped students appreciate nature's forces. The activity also conveyed an important message that we should respect and live in harmony with nature.

Fruit Art Adventure

This activity engaged the students of Grade 1 with drawing, naming and coloring fruits. Names of Indian fruits and those grown in other countries were introduced. Students drew and coloured their favorite fruits. They enjoyed the activity thoroughly.

Vegetable Activity

This activity helped students of Grade 1 understand the importance of vegetables and their health benefits. By incorporating vegetables into their daily routine and diet, they can maintain good health and receive essential nutrients. This exercise also helped children learn the Kannada names of various vegetables, identify their colors in Kannada, and foster creativity by drawing and coloring their favorite vegetables, such as Carrot (ಗಜ್ಜರಿ - Gajara), Potato (ಆಲೂಗಡ್ಡೆ - Aloo gadde), Tomato (ಟೊಮೆಟೊ - Tomato), and Cucumber (ಸೌತೆಕಾಯಿ - Southekeyi). Interestingly, most students chose cucumber (Southekeyi) as their favorite vegetable.

Suggi

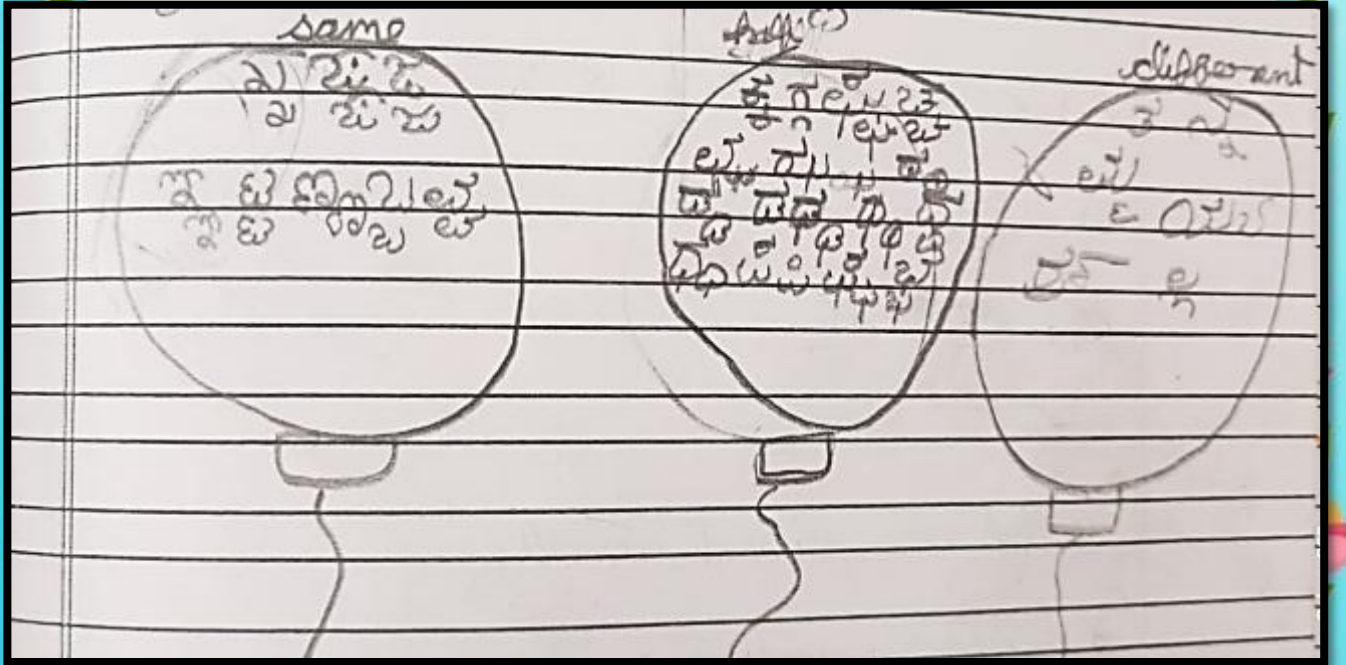

Students of Grade 2 participated and enjoyed doing activity on Suggi. This activity enhanced their learning about the harvest festival-Sankranti. They drew sugarcane, pongal in the pot, cows, children playing with kites and bright sun. It was a true celebration of Suggi festival.

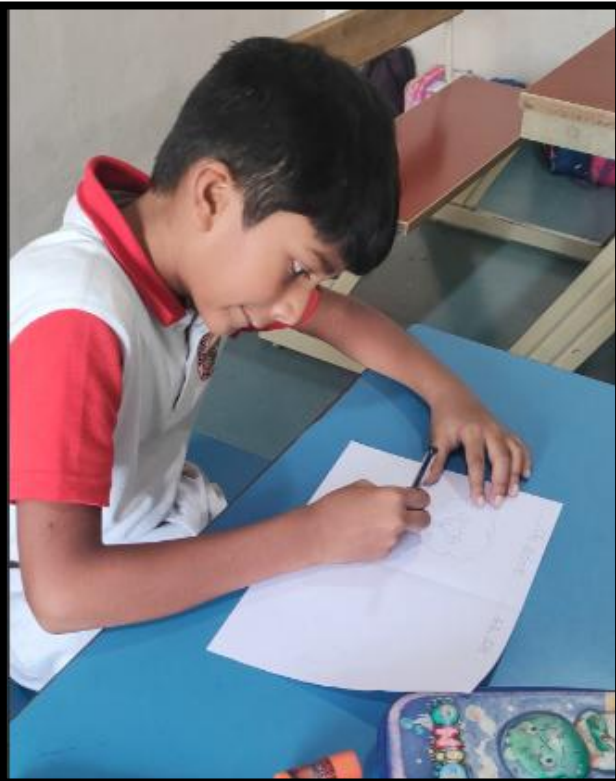

Otthakshara

Grade 2 students actively participated in an art integration activity focused on otthakshara. They drew three balloons and wrote different forms of otthakshara on them. Through this activity, they learned about three types of otthakshara: otthakshara without thallakattu, otthakshara with thallakattu, and unique forms like ಯ್ಯ, ರ್ರ, ಲ್ಲ, ನ್ನ, ತ್ತ, ಮ್ಮ. The students enjoyed the activity and learned through hands-on experience.

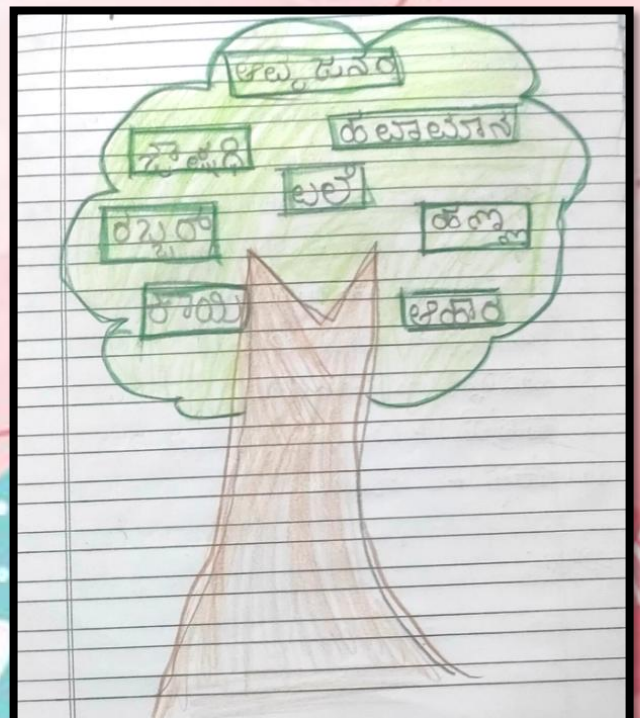

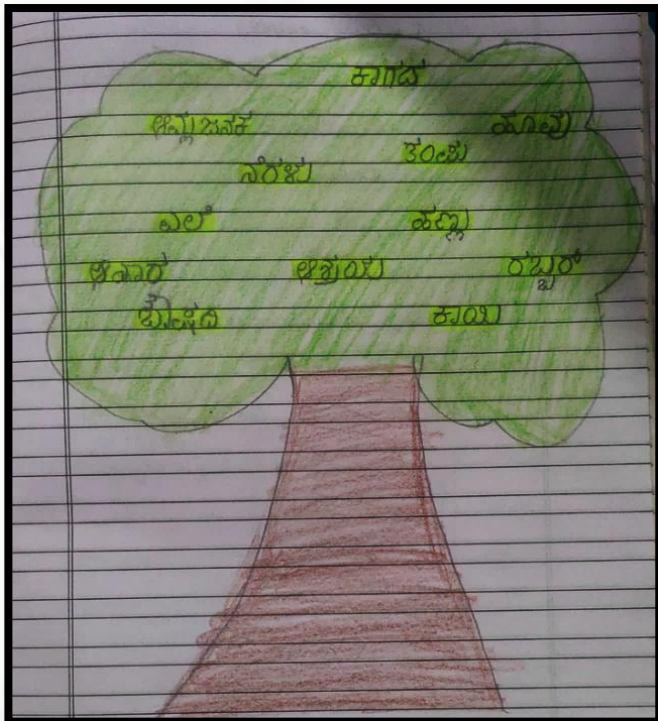

Nature's Creatures

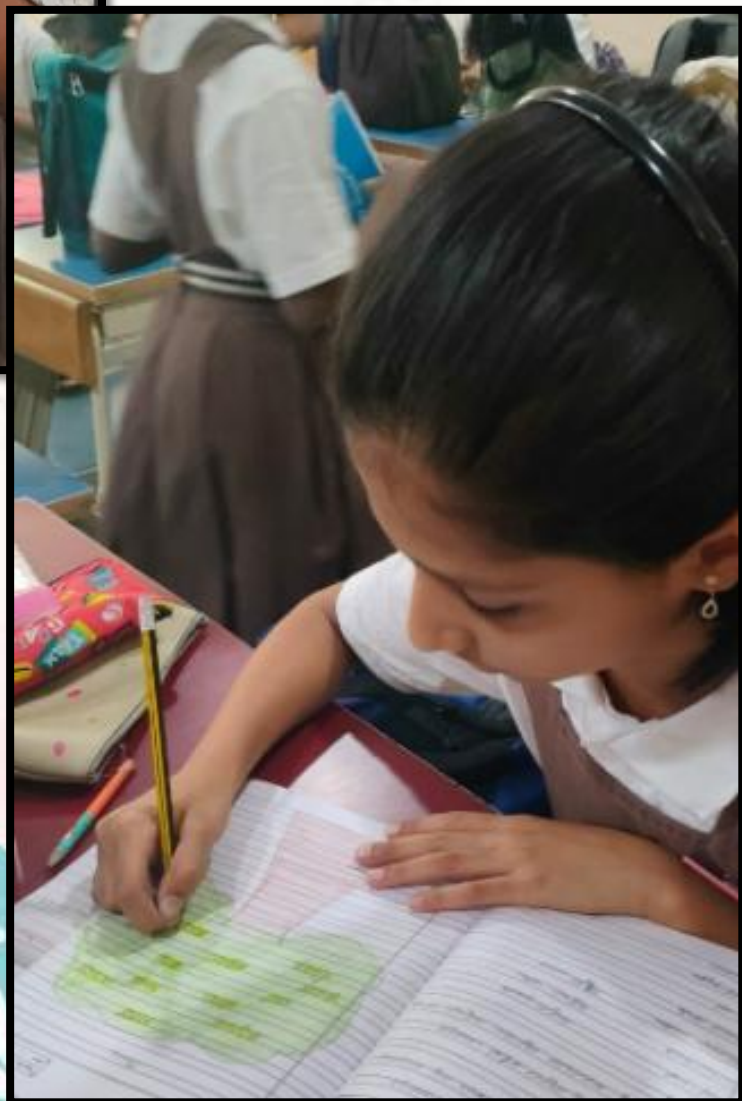

Drawing animals enhanced observation skills of Grade 3 students and attention to detail while deepening understanding of animals. It encouraged creativity in depicting fur patterns, colours and expressions. Sketching both wild and domestic animals presents artists with diverse challenges and styles. Whether capturing the fierce beauty of a lion or the gentle charm of a cow, each animal tells its own unique story through art. They differentiated the wild animals from domestic and wrote the names in Kannada.

Uses of Trees

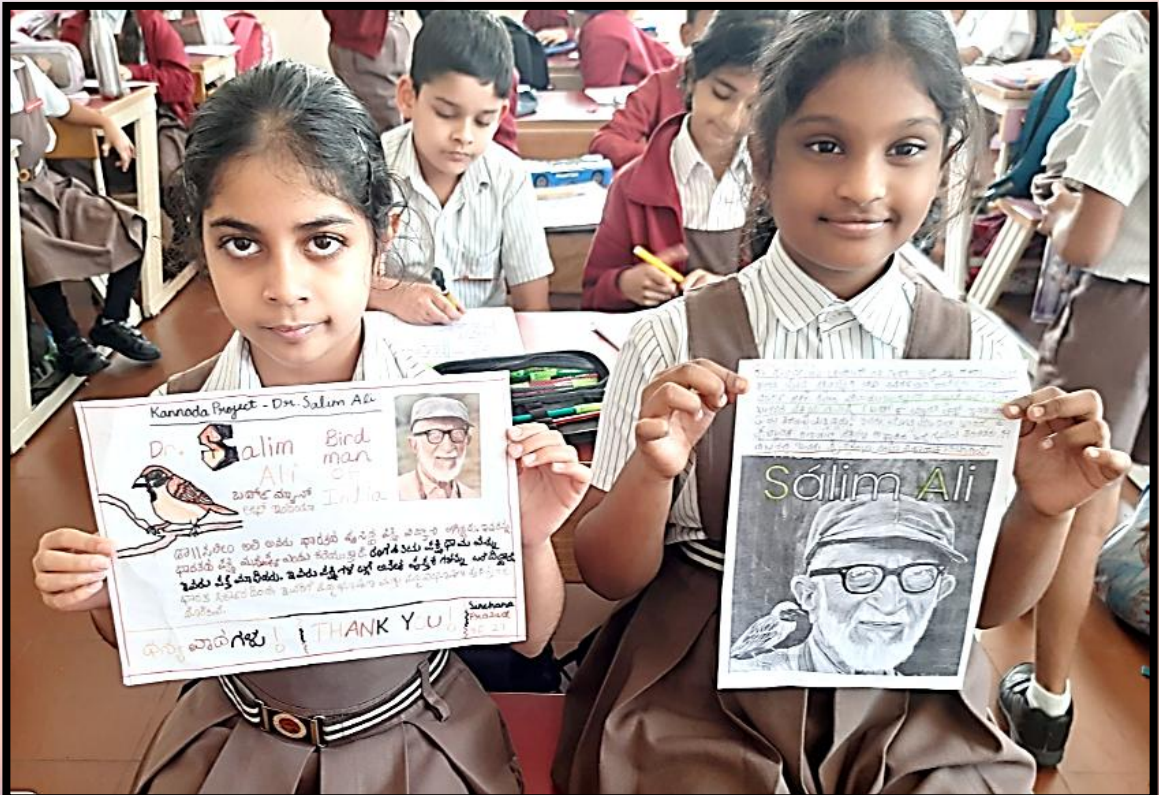

Students of Grade 3 did a fun Kannada activity where they drew a tree and wrote its uses inside. They highlighted how trees provide oxygen, fruits, shade and offer homes for birds and animals. They understood the importance of trees in their daily lives; they also understood the need to plant and protect more trees. This activity improved Kannada skills, increased awareness of trees' roles, fostered creative expression, and helped to remember the uses of trees.

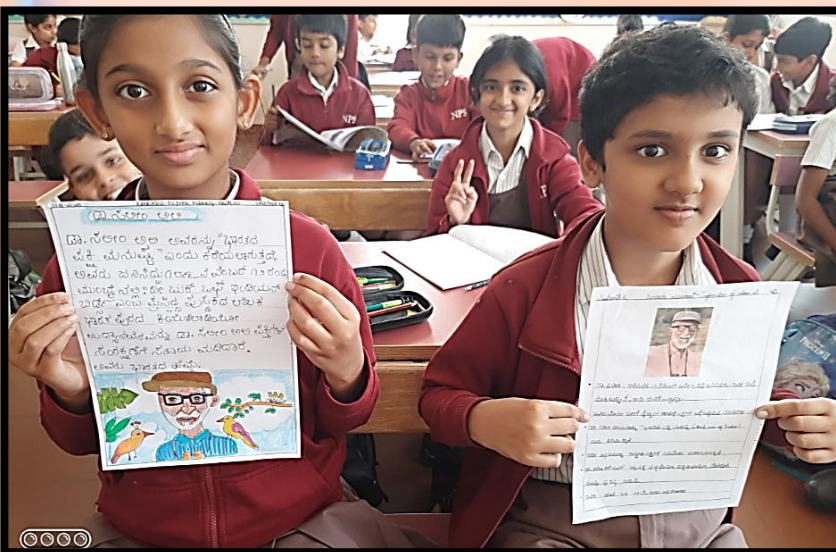

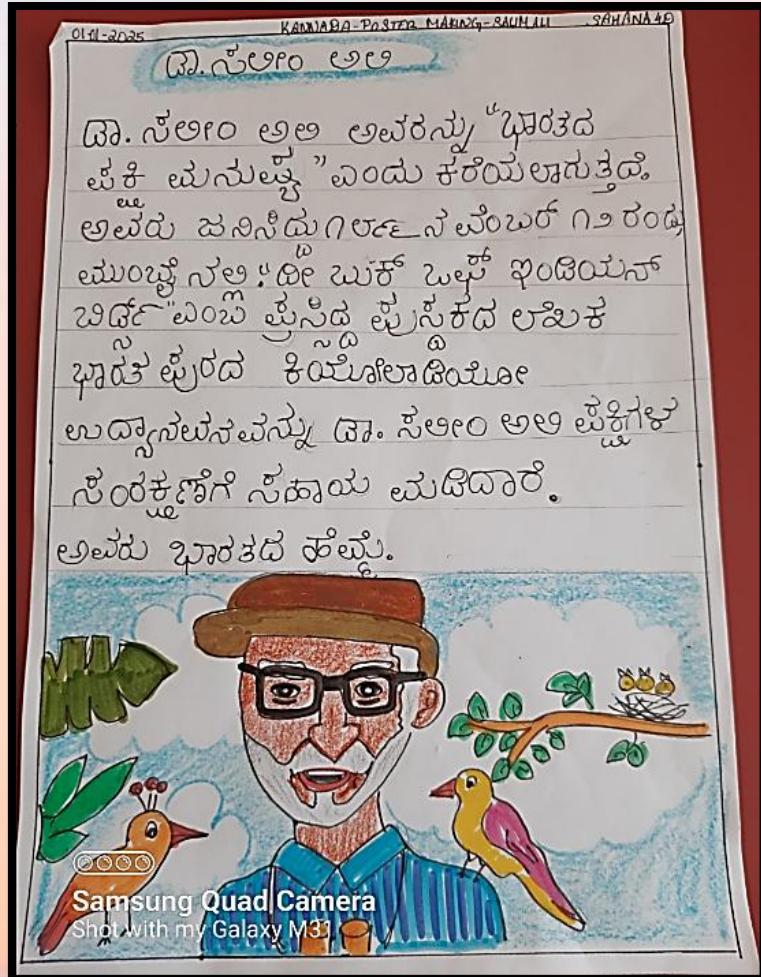

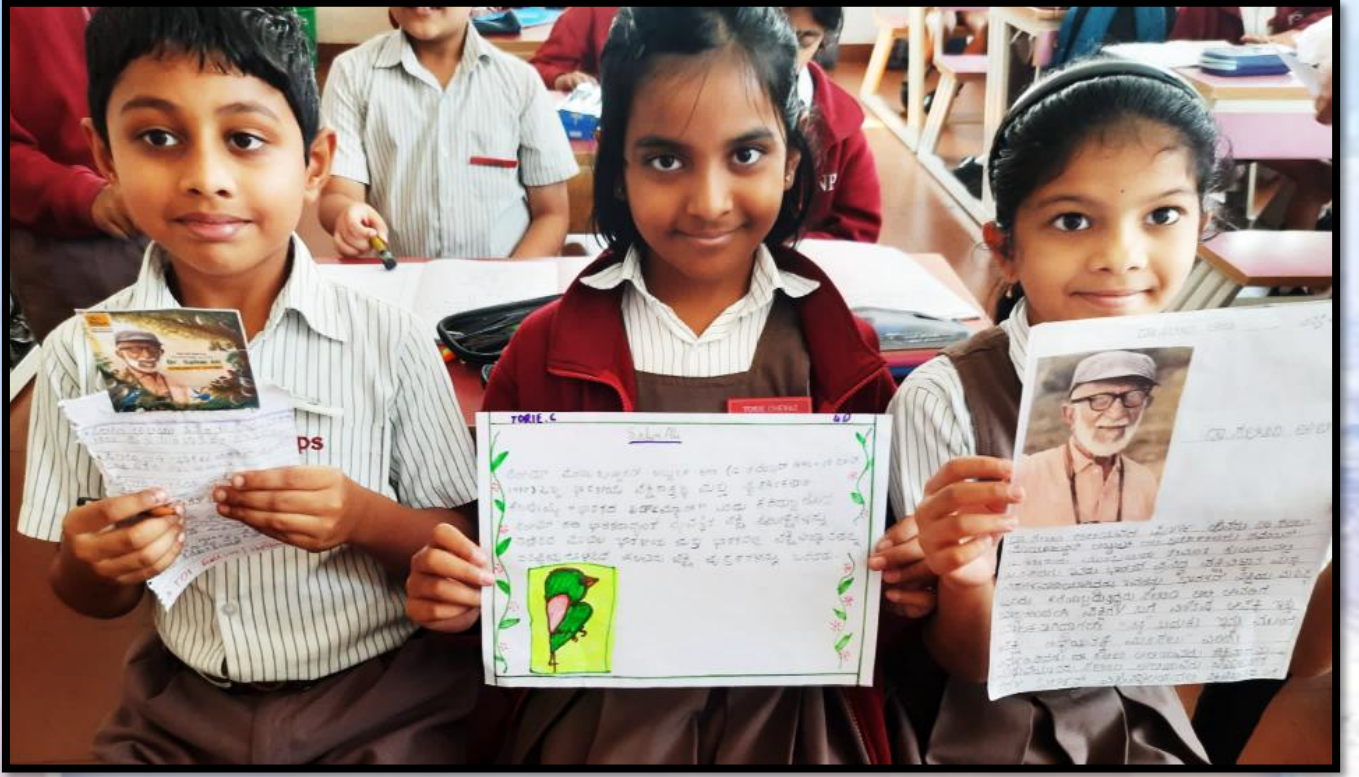

Salim Ali

Salim Ali, known as the 'Birdman of India', was a renowned ornithologist and naturalist who inspired many to love and protect birds. Through art integration, students of Grade 4 creatively explored his work by drawing and painting colorful birds, labeling them, and adding interesting facts about Salim Ali. These activities help students better understand his contributions to preserving India's birdlife while fostering creativity and a sense of responsibility towards nature.

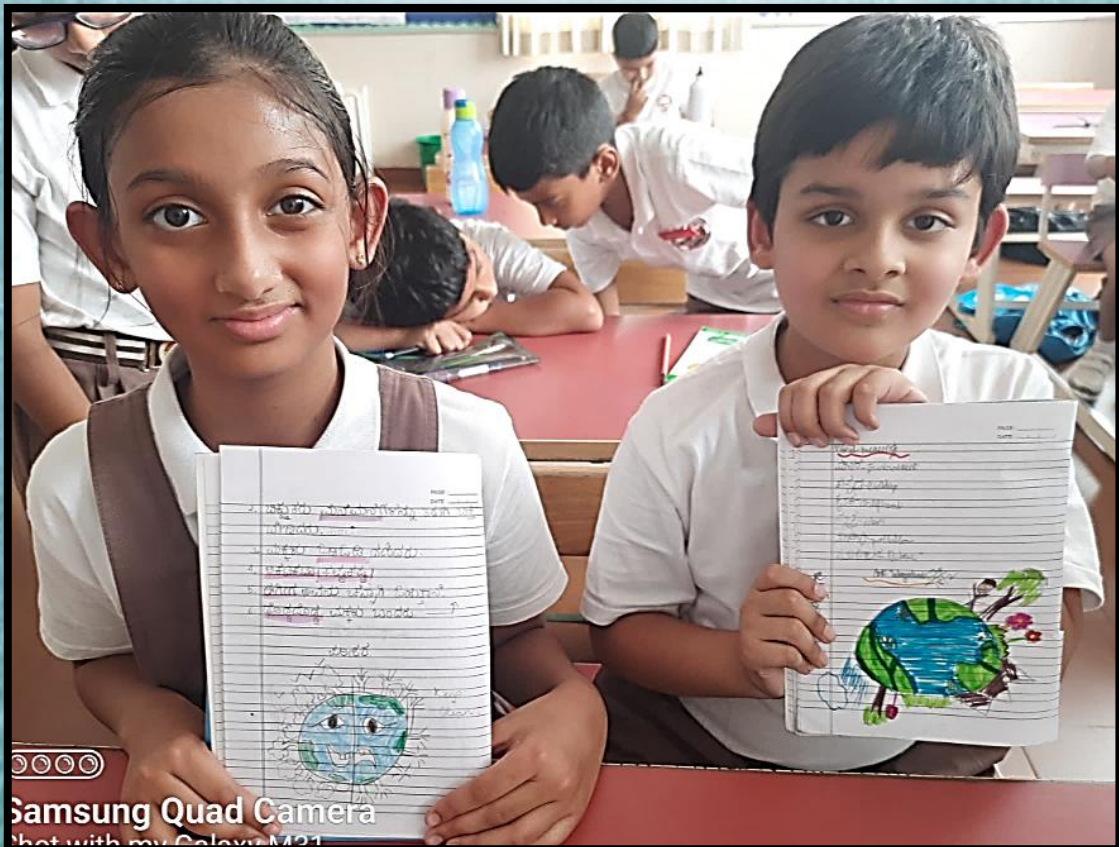

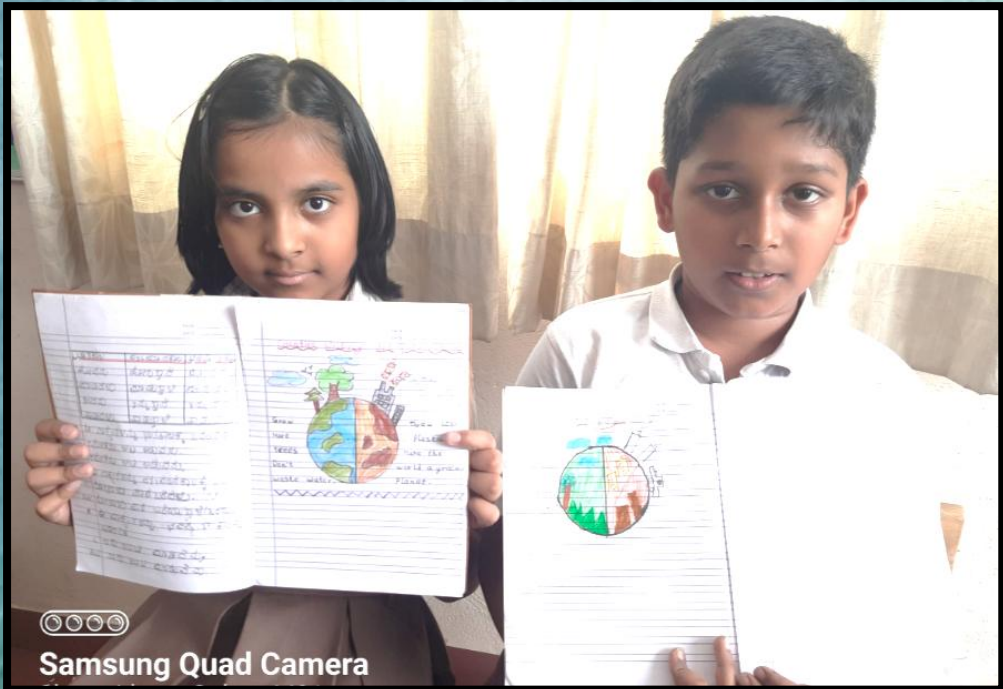

Save our Environment

In the art integration project, students of Grade 4 explored environmental conservation by creating drawings that highlighted nature's beauty and the impact of human actions. They developed observation, drawing, and critical thinking skills through landscape artwork. The project fostered creativity and a deeper understanding of the importance of protecting our environment. Students demonstrated their learnings and brainstormed ways to safeguard the planet.

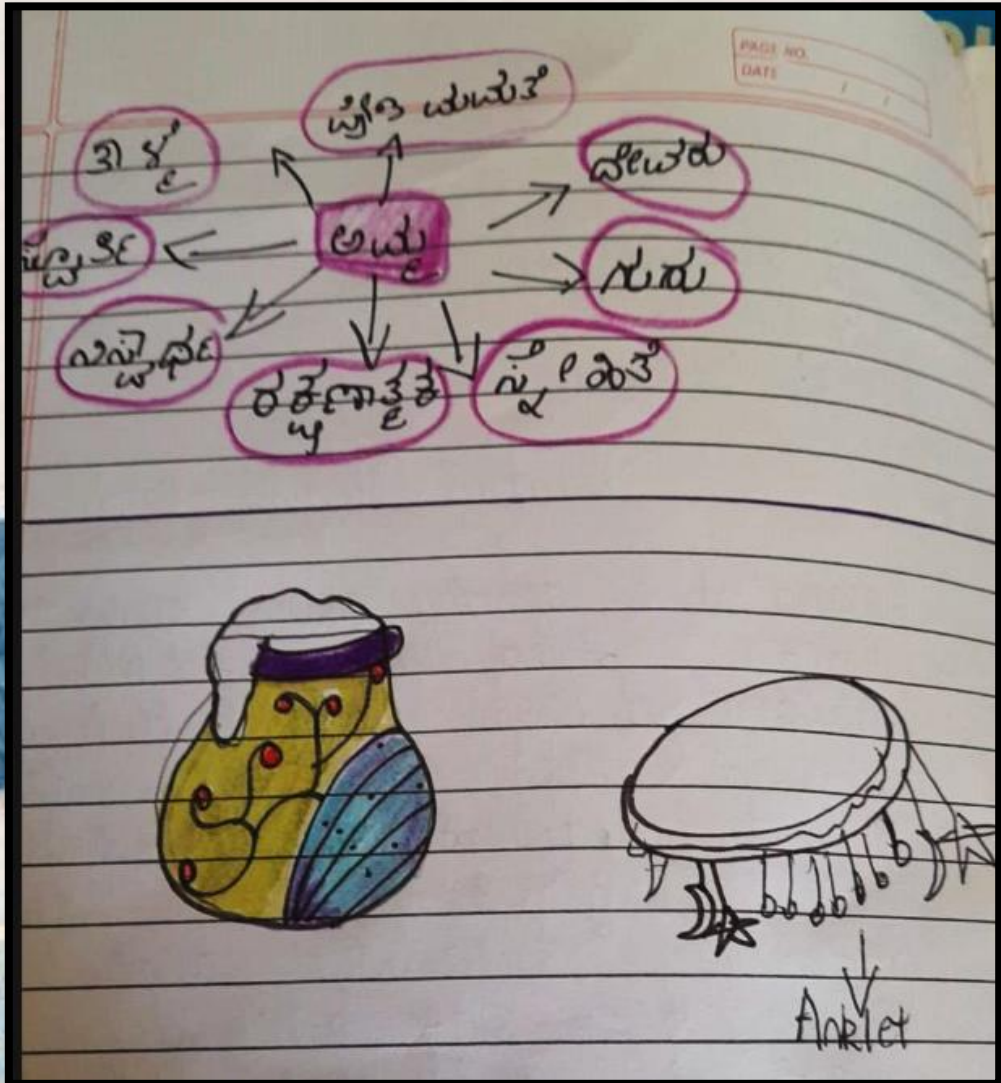

Samsung Quad Camera
Shot with my Galaxy M31

Samsung Quad Camera

Amma and Jaanapada

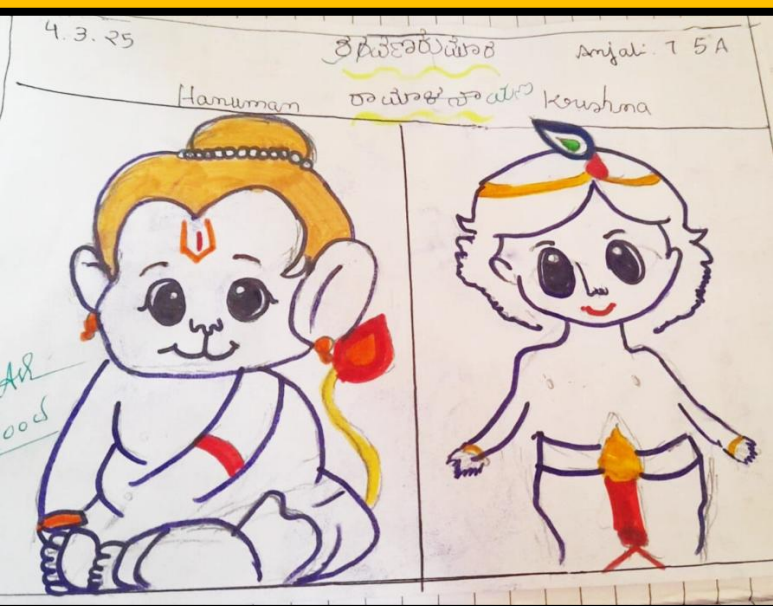

Students of Grade 5 enthusiastically participated in an art integration activity on the topics of 'Amma' and the poem 'Jaanapada'. Through this activity, they explored a mother's love and the nurturing care for her child, fulfilling the child's wishes. They also learned Kannada village words, which they enjoyed using with their friends.

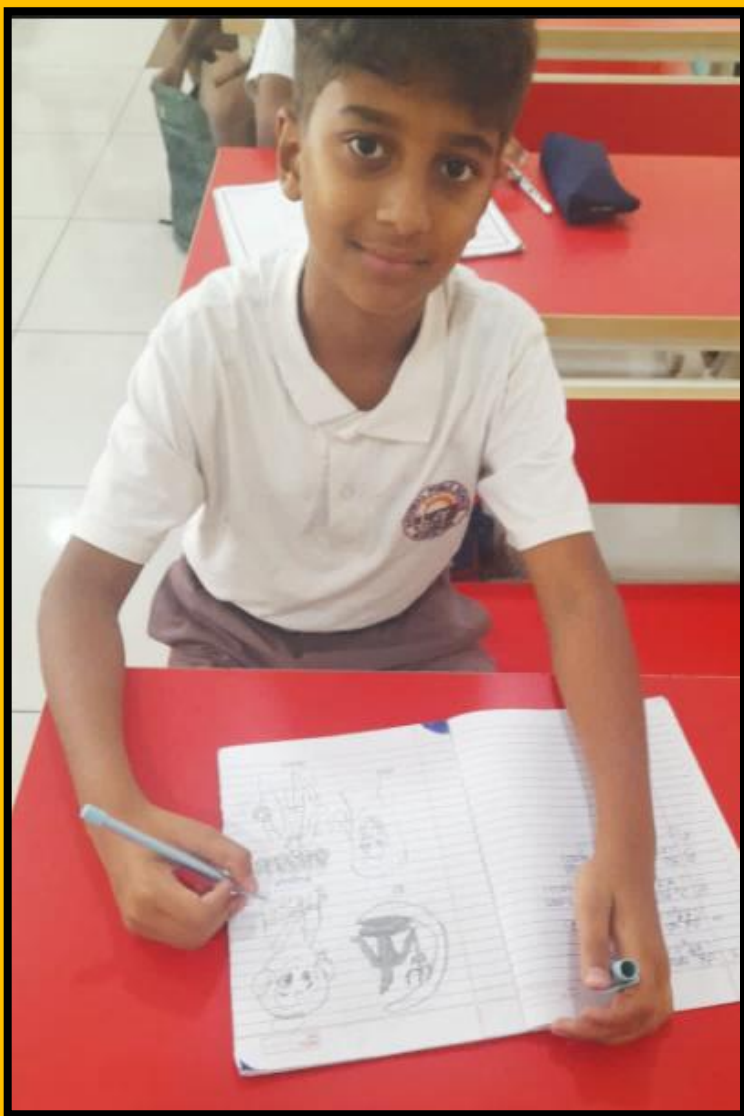

Poster making of Ramayana

Characters

Students of Grade 5 participated in a collage-making activity featuring characters from the Ramayana as part of their Kannada lesson, 'Shravanakumara'. They collected pictures of Ramayana characters, made a collage, and labeled the characters in Kannada. Through this activity, they learned values like kindness, patience, dedication, respect for parents, and narrated related stories in Kannada.

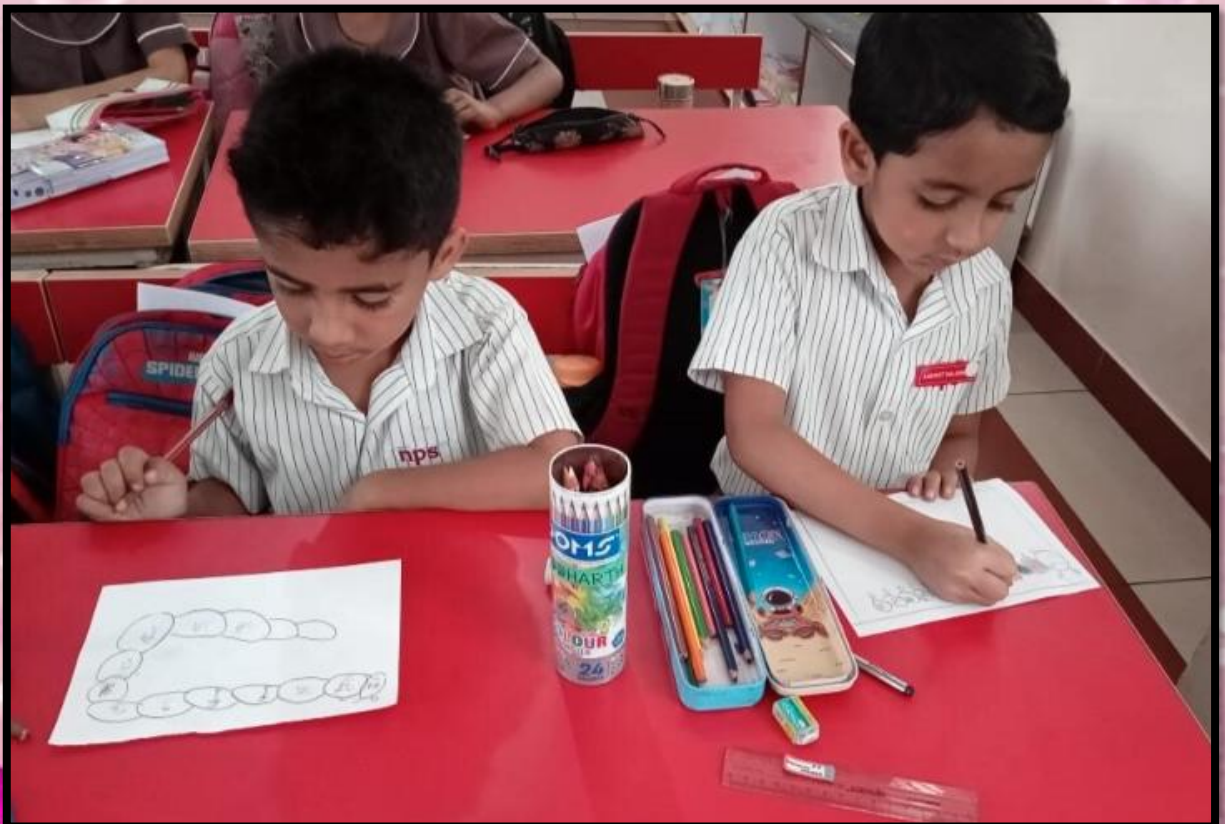

HINDI

Caterpillar

The caterpillar activity aimed to help students of Grade 1 learn letter formation in Hindi through an engaging hands-on approach. Children used colourful caterpillar drawings to construct different Hindi letters, enhancing their motor skills and letter recognition. Overall, the activity was a fun and effective way to promote Hindi language learning.

रंगो का त्योहार (Festival of Colors)

In this activity, students of Grade 1 created drawings inspired by the Holi festival. The aim was to incorporate Hindi names for various colors into their artwork, celebrating the vibrant essence of Holi.

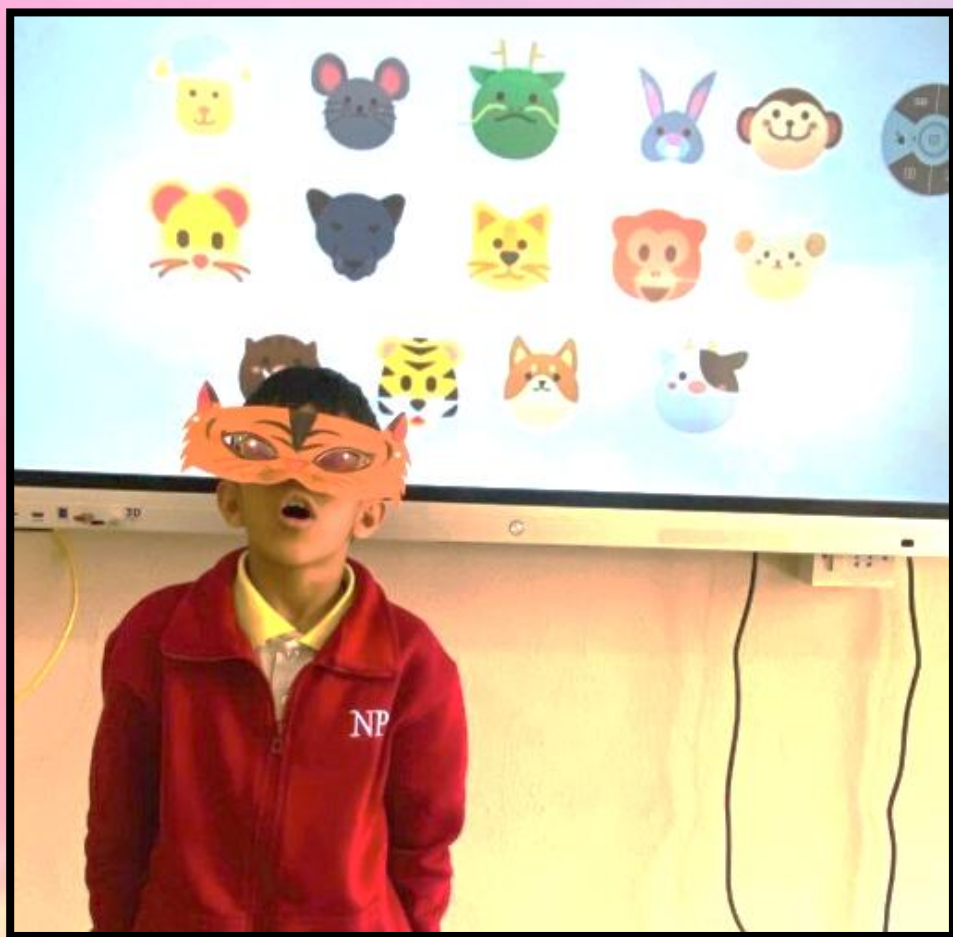

Animal Mask

This activity was an extension of a previous lesson where students of Grade 2 learned the Hindi names of domestic and wild animals. The students were asked to select their favorite animal and bring a mask representing that animal. They then shared the characteristics of their chosen animal with the class. The aim of the activity was to promote speaking in Hindi. Each student enthusiastically participated, showcasing their animal masks and presenting their knowledge. The activity fostered creativity and confidence among the students. It also reinforced their understanding of the animal names in Hindi. Overall, it was an engaging and educational exercise.

Role Play – ‘The Thirsty Crow’

In this pair activity, each pair of Grade 2 students performed a role play to enhance their understanding and grasp the message of the ‘Thirsty Crow’ . The teacher provided the necessary props. One student from each pair narrated the story, while the other acted it out.

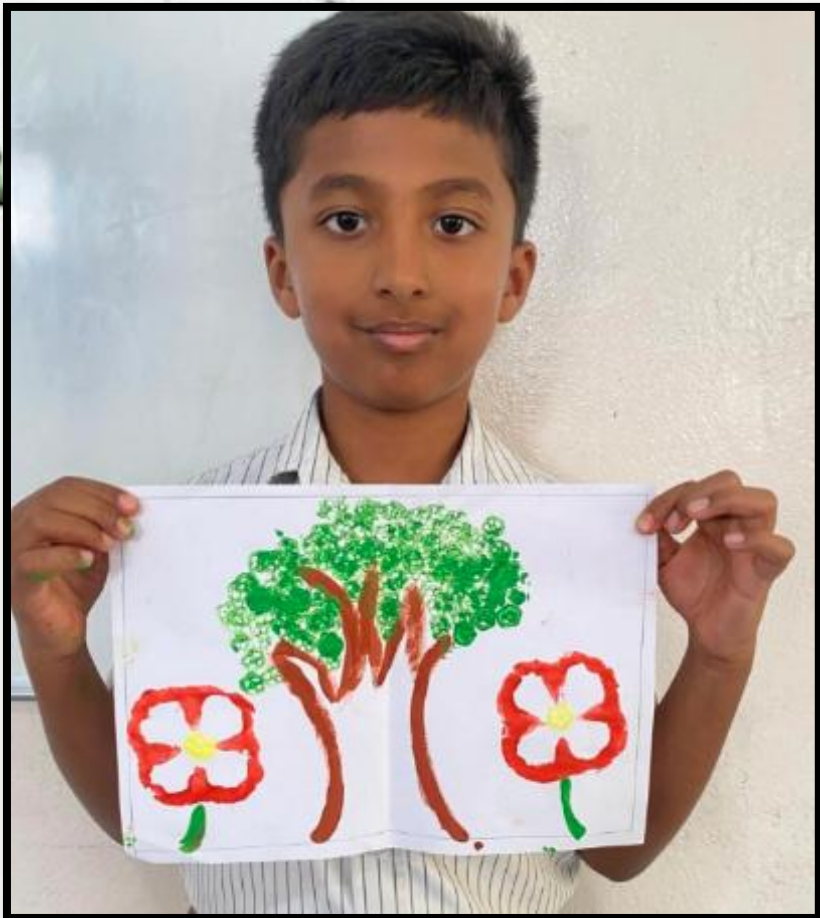

Vegetable Print

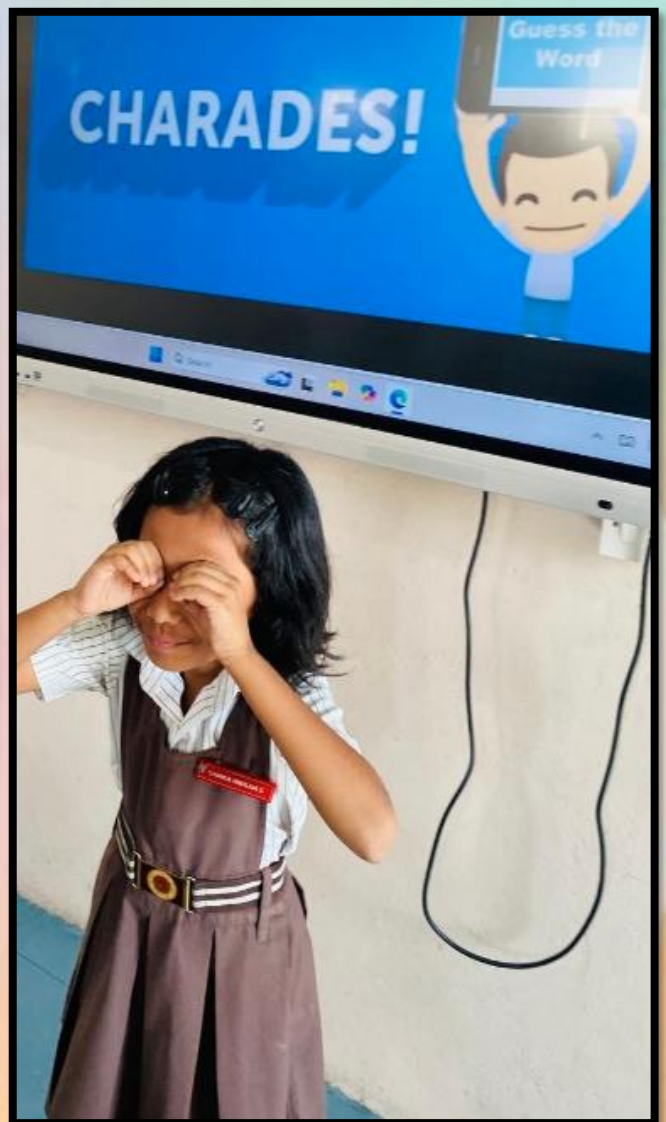

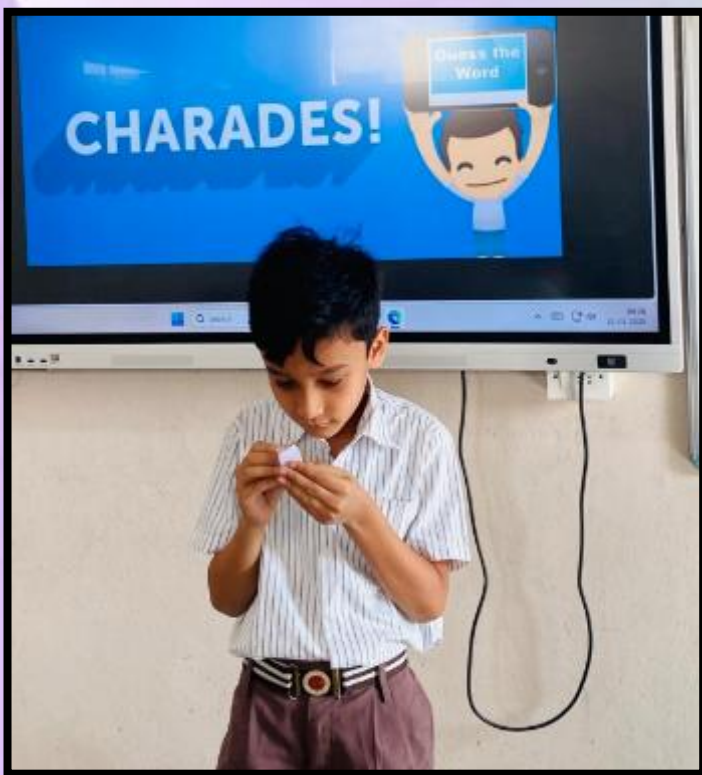

To enhance their understanding of the Hindi lesson 'Kaisa Shor', which introduced the names of various vegetables, students of Grade 3 participated in an activity aimed at improving their knowledge of Hindi names for common household vegetables. They brought different vegetables and used them to draw and paint various objects.

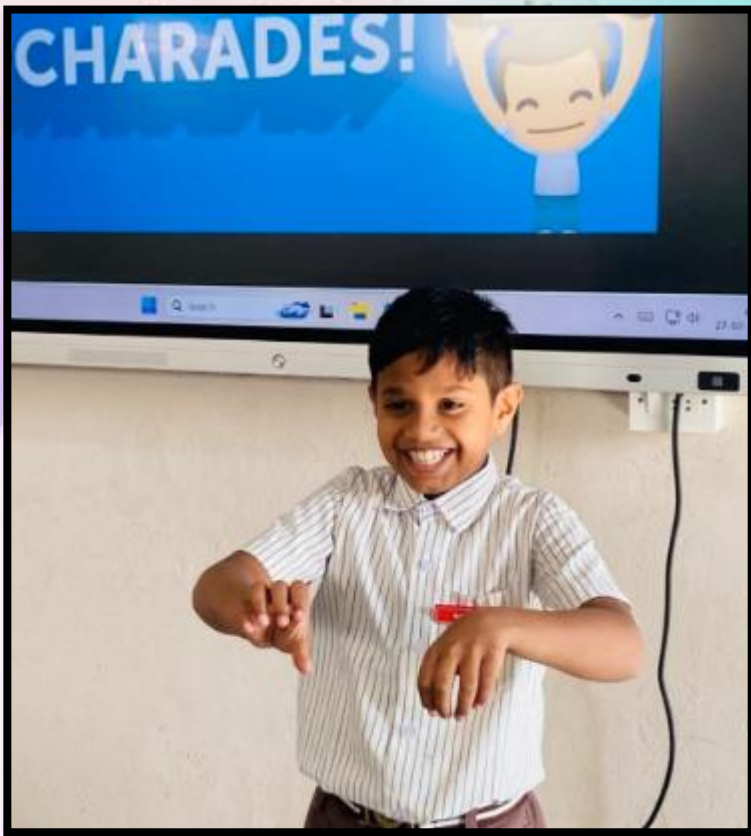

Verb Charades

The Dumb Charades activity was performed by different teams in class 3. One member from each team was given a verb and had to act it out while their teammates guessed. The activity aimed to enhance students' understanding of verbs through interactive participation.

अद्भुत मोर तथ्य (Amazing Peacock Facts)

Students of Grade 3 were tasked with researching the peacock, focusing on its physical features, habitat, behavior, and significance in Indian culture. After gathering their information, each student shared fun and interesting facts about peacocks with the class. This activity promoted independent learning, curiosity, and public speaking skills.

Flower Rangoli for Onam

To deepen their understanding of the lesson 'Onam', the children of Grade 4 brought flowers to school. They then created flower rangoli in class, working in various groups. This activity taught them teamwork and fostered creativity.

Our Festivals

This activity, 'Our Festivals' was conducted for Students of Grade 4 to grasp the significance of festivals, as this fosters respect for our nation's rich culture and heritage. Encouraging them to write a short essay in simple words about the importance of festivals helped them understand the concept. This activity also enhanced their thoughts and helped present ideas clearly and concisely.

Samay Bahut He Mulya Hai

Students of Grade 5 created a timetable in Hindi, for the lesson 'Samay Bahut he Mulya Hai', where they planned their daily schedule, allocating specific time for schoolwork, hobbies and rest. This activity encouraged them to set goals and track their progress. It also helped them understand the value of time and develop effective planning skills. Students wrote 'time words' in Hindi.

Green Infrastructure

Students of Grade 5 wrote a paragraph on the topic, 'Vriksh Lagao Pradushan Bhagao', in Hindi. This encouraged them not only to learn the language but also enhanced their creativity and vocabulary.

In this activity, students took an active role in reducing pollution by drawing cards about planting saplings. They learned about the importance of trees in purifying the air and improving the environment. Students understood their responsibility toward nature. This educated them about environmental conservation and instilled a sense of pride and accomplishment in contributing to a greener future.

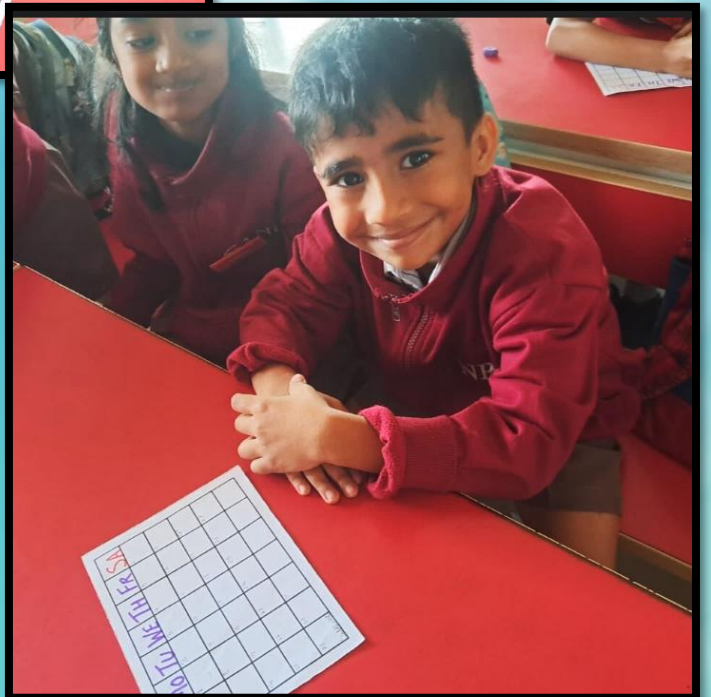

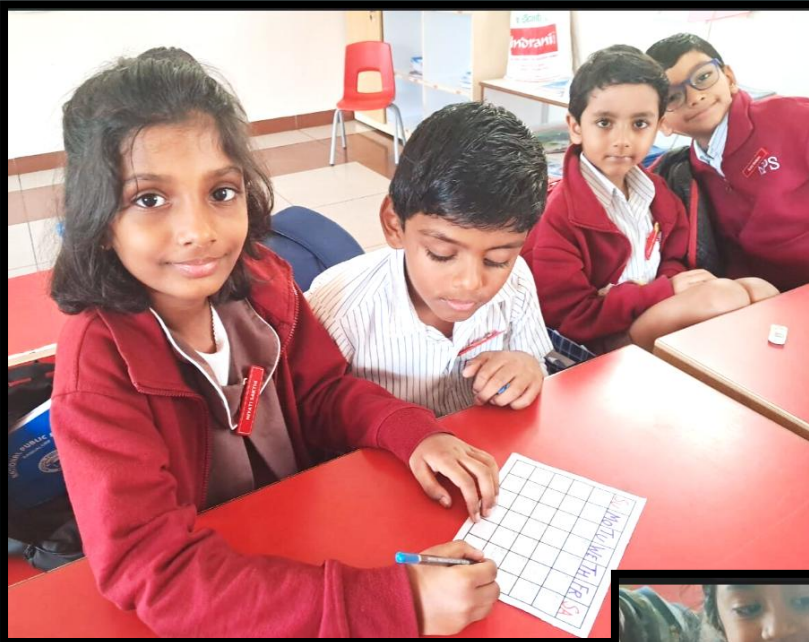

MATH

Activity Log

Learners carried out a collaborative task. Grade 1 students were divided into groups of two, and they build a Class Calendar by writing dates, days, and marking their names under the day and month of their birthday. The main objective of this activity was to make students read and comprehend the calendar and its significance in their daily lives.

Fun with Shapes!

In this activity, students of Grade 1 used cutouts of various shapes such as squares, triangles, rectangles and circles to create an image of their choice. Combining different geometric shapes to form images, develops visual perception and creativity.

By doing this activity, students reinforced the names of shapes, spatial relationship and fine motor skills. This activity develops cognitive development and creative thinking.

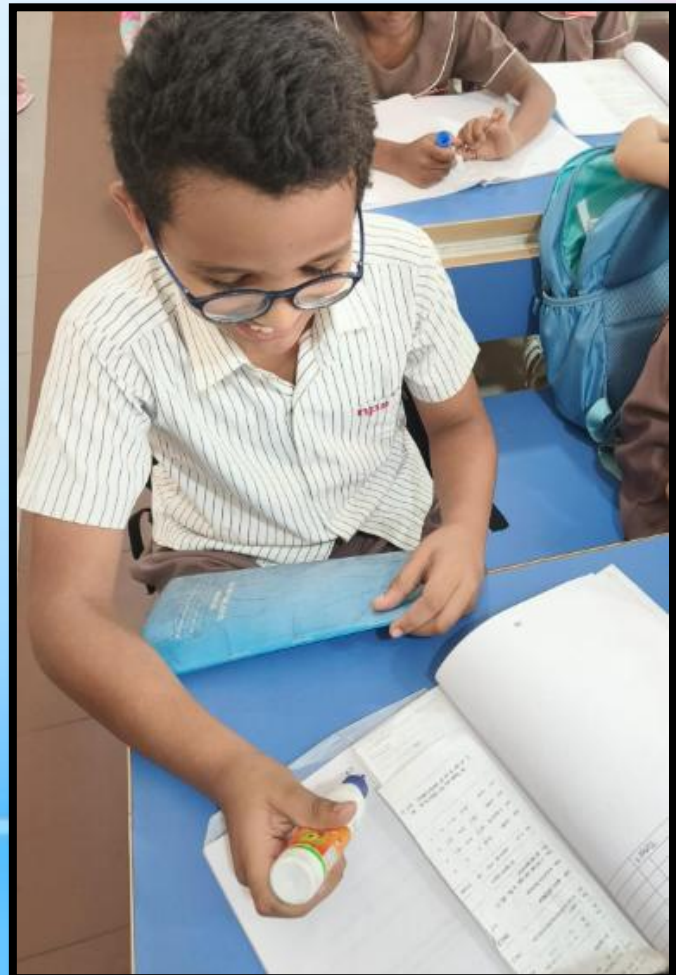

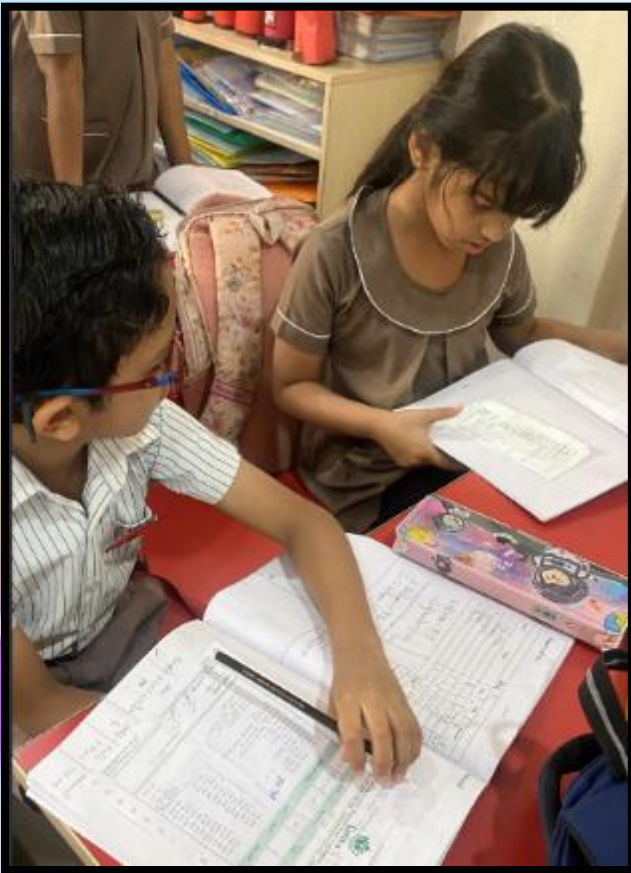

Fun With Bills

Students of Grade 2 brought bills listing item names, prices, quantities, and pasted them in their books. They noted the quantities and unit prices, then calculated the total cost for each item by multiplying the unit price by quantity. They discussed their findings, compared bills with classmates, and understood real-life applications of multiplication in everyday shopping.

Clock Making Activity

Students of Grade 2 brought a paper plate, two ice cream sticks, and glue or a pin for this activity. They marked numbers 1 to 12 on the plate, ensuring equal spacing, and attached the ice cream sticks as hour and minute hands. By setting and reading the time on their handmade clocks, they engaged in an enjoyable and educational way to learn about time.

Fun With Time

In the clock-making activity for Grade 3, students enthusiastically designed clocks using paper plates for faces and paper cups for stands. They decorated their plates with numbers and creative designs, then assembled clock hands with brad fasteners. This hands-on project encouraged artistic expression and practical learning about time, resulting in colorful, functional clocks that the children proudly took home. The activity effectively combined creativity and education, fostering engagement and understanding.

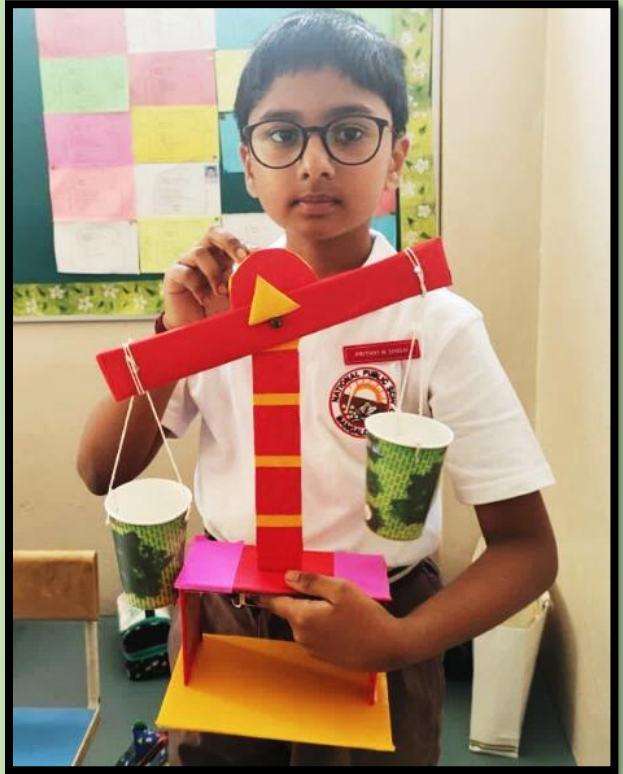

Measures of Mass-Weighing Scale

In weighing balance activity for Grade 3, the young learners explored the concept of mass by using simple homemade balance. Each student crafted their own balance scale using everyday materials like hangers, string, and cups. They then practiced weighing various objects comparing their weights. This hands-on activity, not only made learning fun, but also helped students grasp the principles of balance and measurement effectively.

Decimals

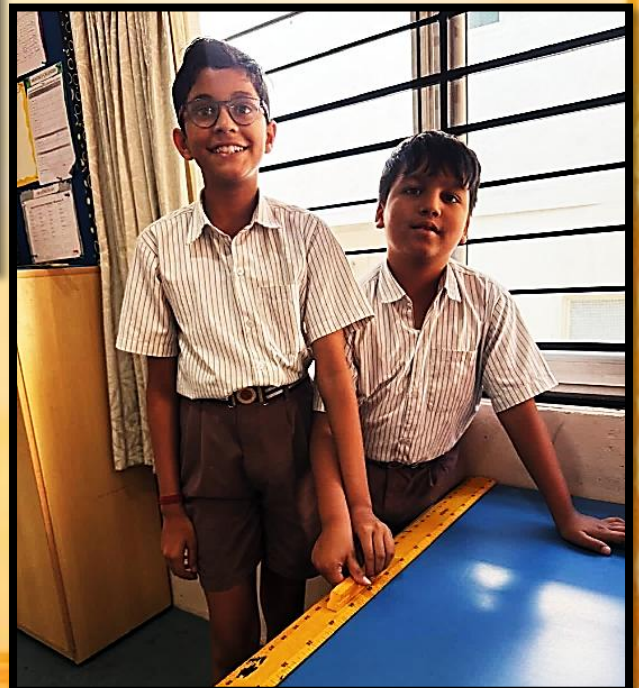

For this activity, students of Grade 4 created vibrant flower designs on grid sheets, using decimals to color specific sections. This engaging task helped them understand decimal representation and spatial relationships while practicing adding decimals. The activity reinforced their math skills and encouraged creativity and problem-solving.

Perimeter

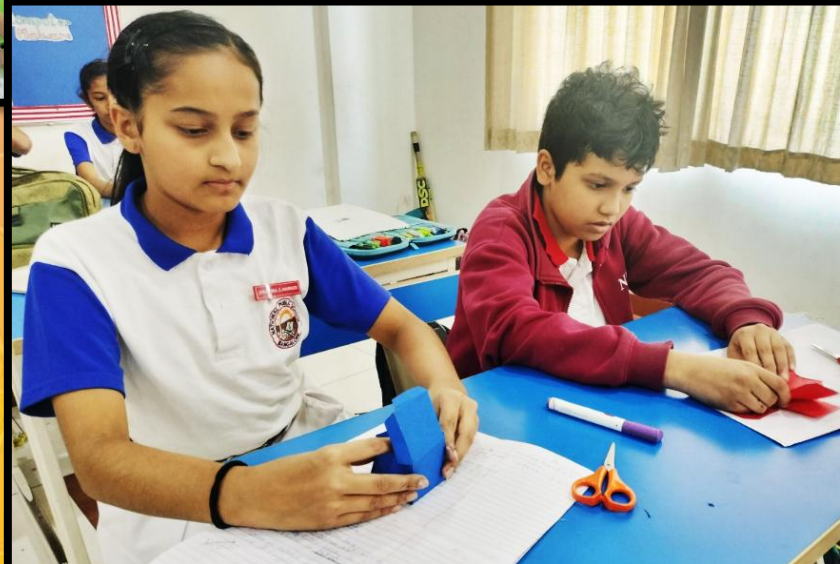

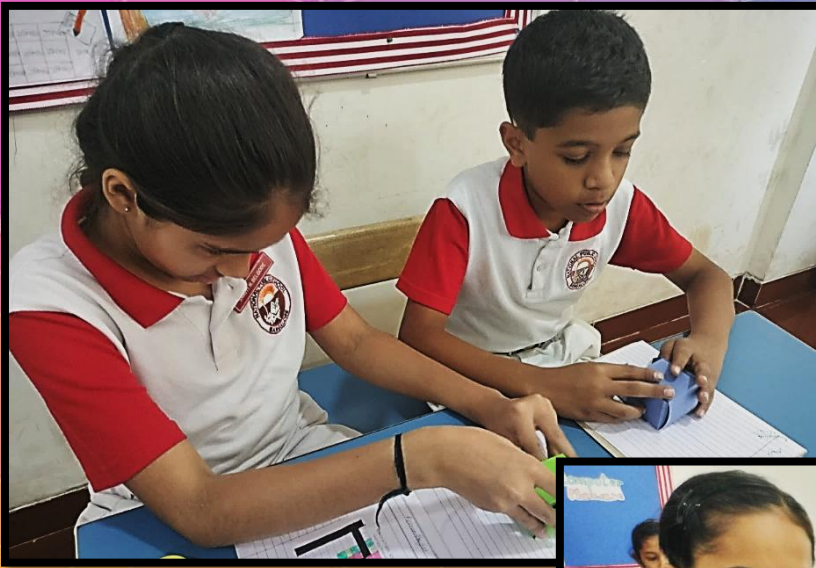

Students of Grade 4 used measuring tapes to calculate the perimeter of various classroom objects. They measured side lengths and added them to find the total perimeter. This hands-on task reinforced their understanding of perimeter and measurement techniques, making math tangible and engaging. The practical experience solidified their grasp of essential concepts.

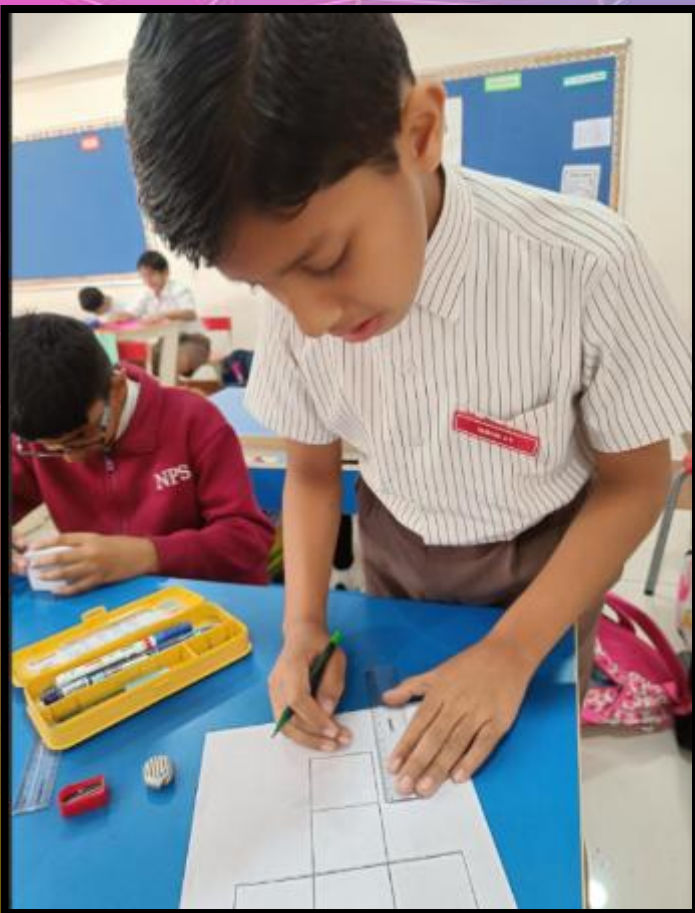

Volumes

In cube net diagram activity, students of Grade 5 created paper cube models by folding and assembling net diagrams. They cut out pre-drawn nets, folded along the edges, and glued them to form cubes. This hands-on task helped them visualize three-dimensional shapes from two-dimensional diagrams and reinforced their spatial reasoning skills. The challenging yet rewarding activity deepened their understanding of geometric concepts.

Formula Booklet

In this activity, Students of Grade 5 created personalized booklets of essential math formulae, including concepts like area, volume, speed, distance, and time. They neatly wrote and illustrated the formulae for better understanding. This activity enhanced their organizational skills and provided a handy reference tool, with students taking pride in their creative work.

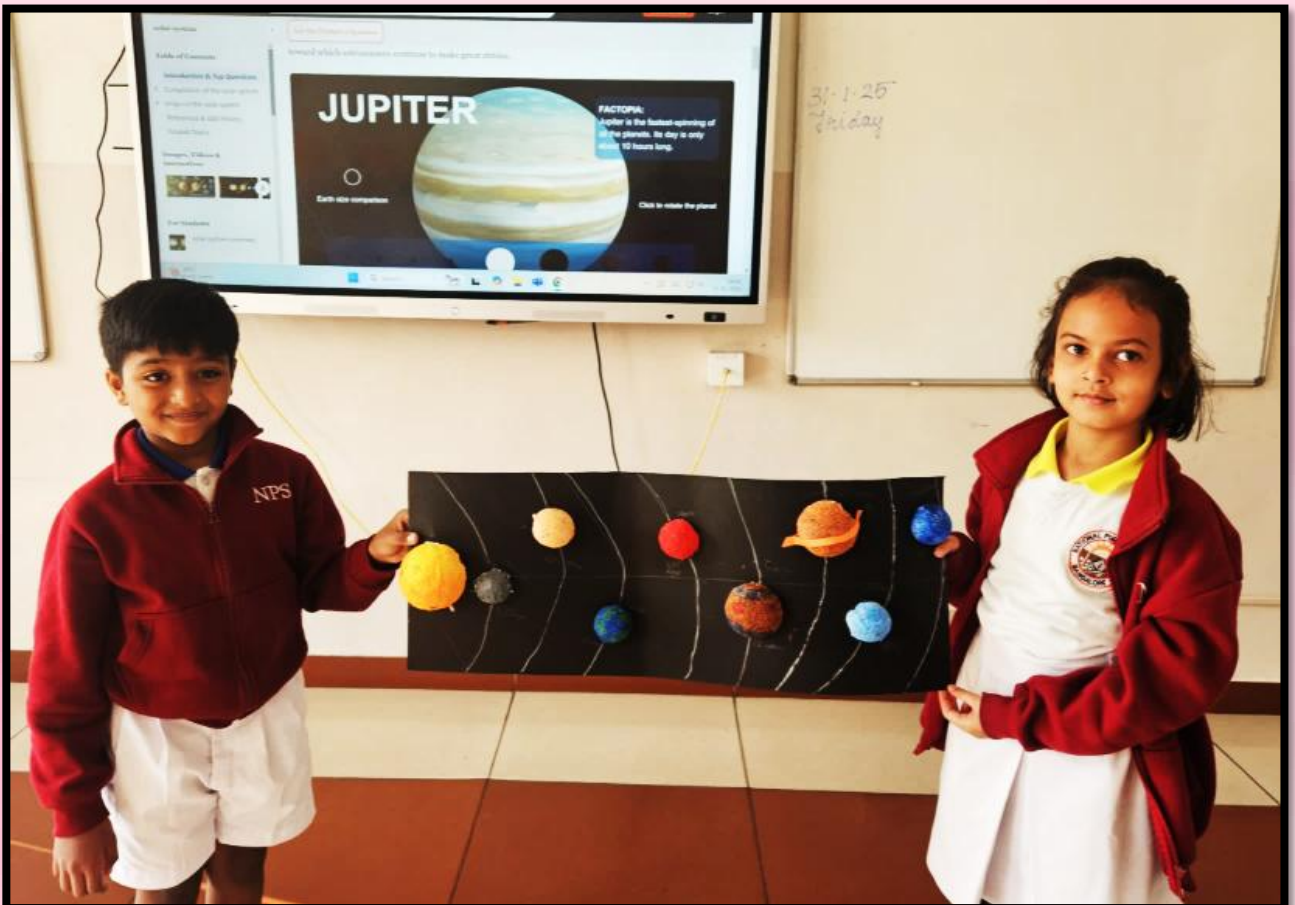

SCIENCE

Exploring the Solar System – A Clay Modelling Activity

Grade 1 students had a hand-on learning experience creating clay model of the Solar System. They shaped the Sun and planets using colourful clay, carefully arranging and labelling them in order. This activity enhanced their creativity, motor skills, and understanding of space. Seeing their excitement and beautifully crafted models made the session a delightful success!

Fruit Salad Making Activity – **Healthy and Fun!**

Our Grade 1 students enjoyed a fulfilled, Fruit Salad Making Activity as part of their EVS lesson on 'Food We Eat'. They brought fresh fruits, mixed them together, and created a delicious, healthy salad.

This hands-on activity taught them the importance of eating fruits while encouraging teamwork and sharing. It was a joyful and tasty way to learn about healthy food choices!

Ready, set, go!

Grade 2 students drew and labelled the traffic light, explaining the significance of each light. They concluded the activity by emphasizing that traffic light prevents accidents, protect pedestrians, and facilitate safe road crossings. Ultimately, this contributes to the safety of our neighbourhood.

Role play – Communication - small gestures help to bring smiles.

Students of Grade 2 had a role play on communication. They enacted as Ria and Ramu, who decided over a phone call to visit their unwell friend Anu. The conversation emphasized on the method of communication. This activity engaged the students' learning showing how communication has advanced.

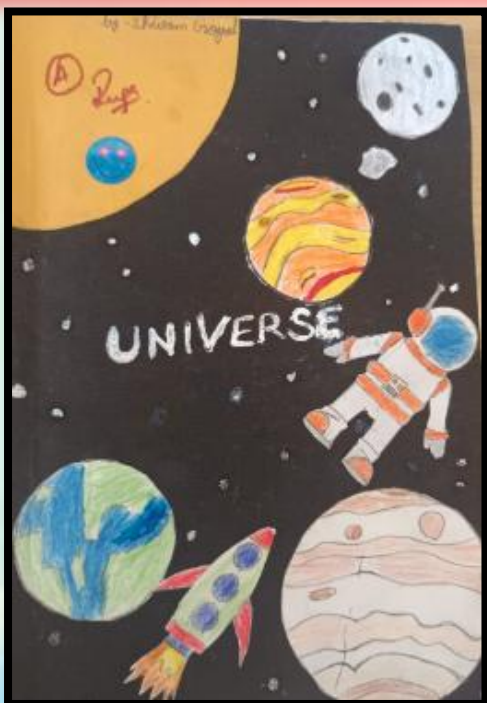

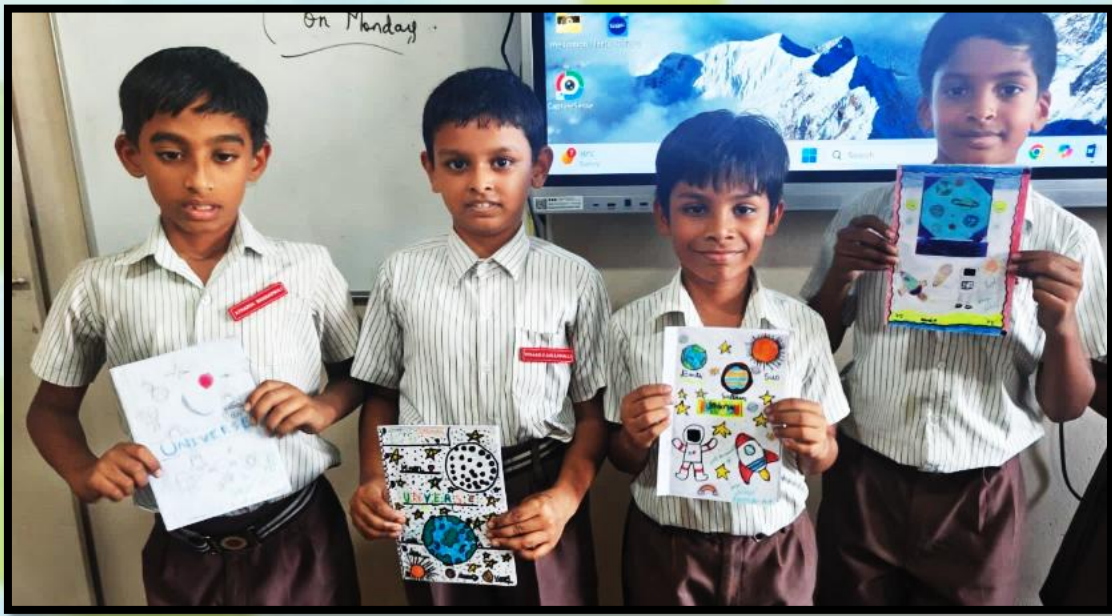

Universe Booklet: A Kid's Guide to the Cosmos

‘Universe Explorers’ is a booklet created by a group of curious and imaginative young minds of Grade 3, eager to explore the vastness of space. This booklet takes readers on a fun and educational journey through the mysteries of the universe, with each page revealing exciting facts and questions that spark a child’s curiosity.

The kids ask some deep and fun questions, like “Is there life on other planets?” and “Can we ever travel to other galaxies?” They end the booklet with a hopeful note, encouraging their readers to dream big and think about how they too, might become space explorers. It’s a reminder that curiosity and creativity are the keys to exploring the universe.

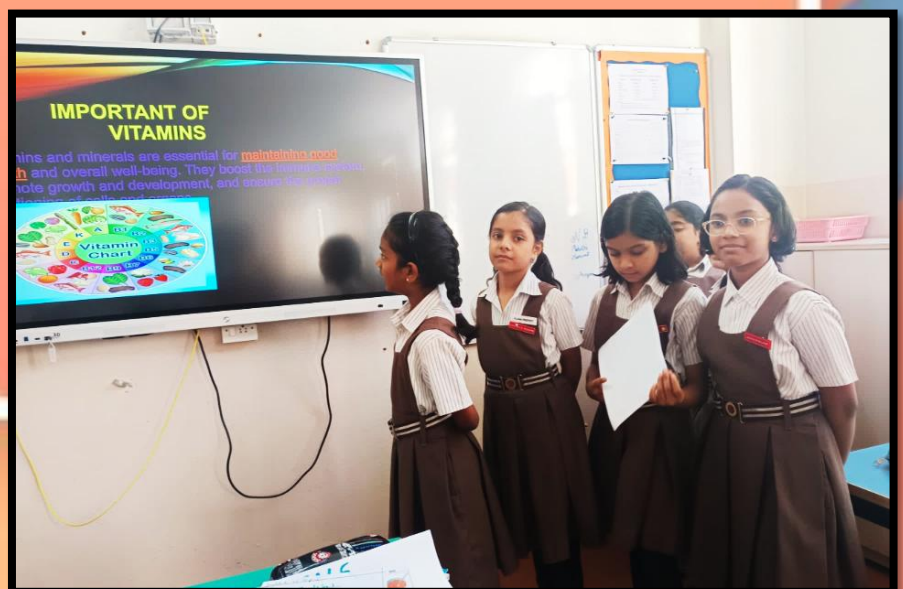

Creative Models of the Respiratory and Excretory Systems: A Kid's Exploration

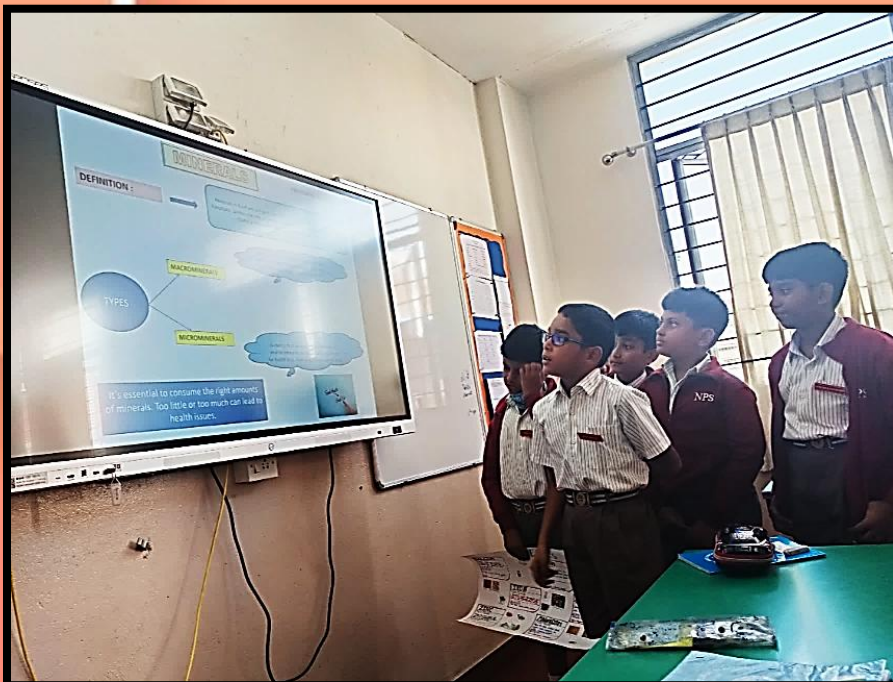

As part of their science project, a group of young students of Grade 3 created a working model of either the respiratory or the excretory system. Using a variety of materials, the children brought these complex biological systems to life in a way that was educational. The models were not only scientifically accurate but also visually engaging. The children's enthusiasm for the topic was clear as they presented the models, demonstrating their understanding of how these vital systems function.

Good health is the best wealth

Students of Grade 4 had a learning experience by discussing and presenting the topic- 'Nutrients And Deficiency Diseases' in groups. They explained the different types of nutrients and their food sources. The concept of lack of nutrients leads to deficiency diseases was well understood.

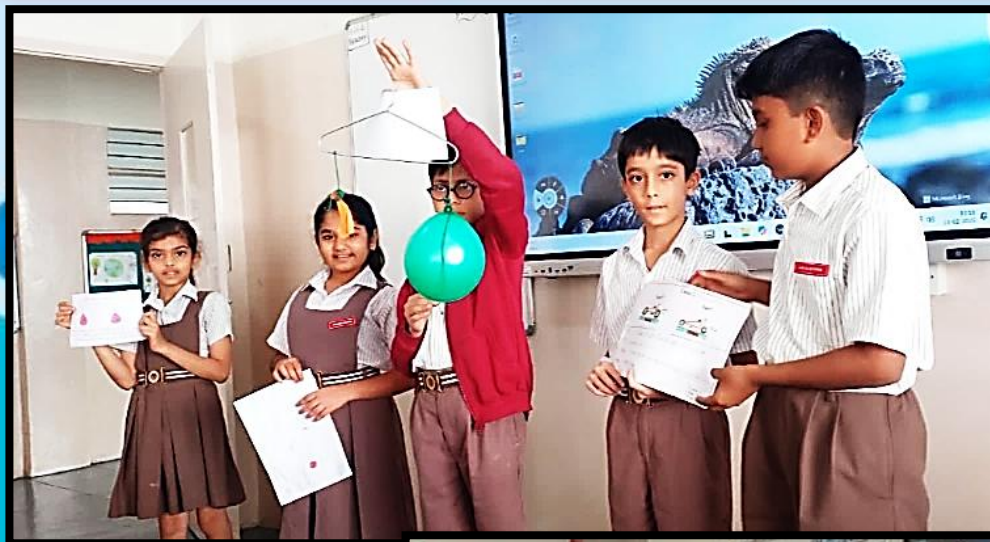

The True Method Of Knowledge Is Experiment

Students of Grade 4 were involved in demonstrating experiments on properties of air and water. It included concepts like air occupies space, air has mass, water occupies space etc. Students exhibited their understanding by performing the experiments. This developed better critical thinking to see ideas objectively.

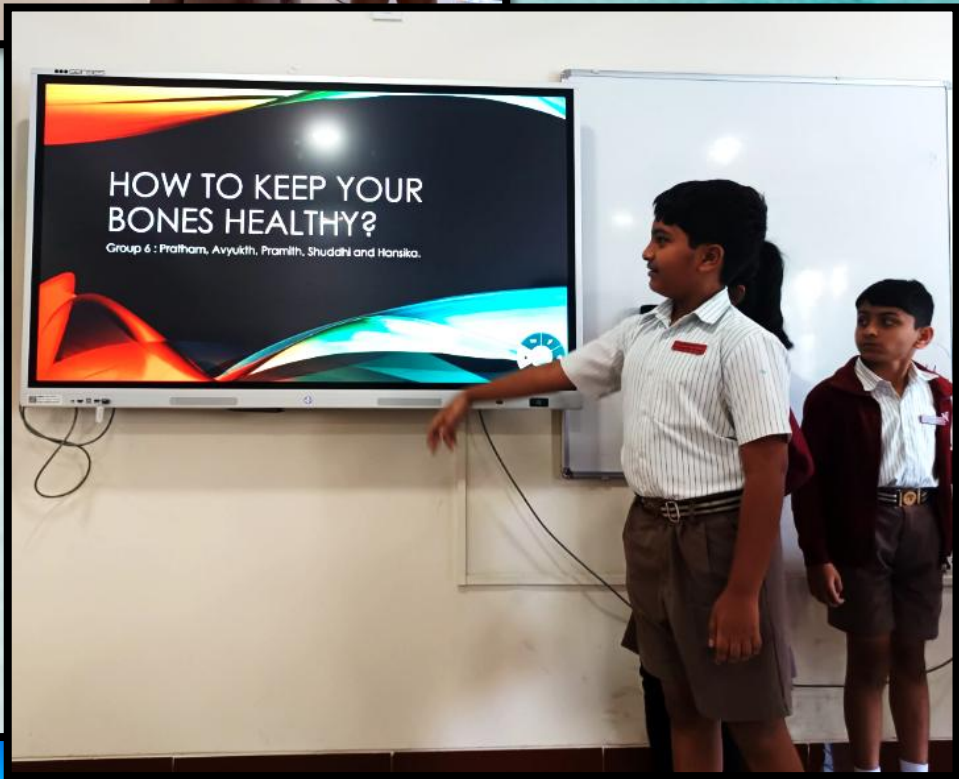

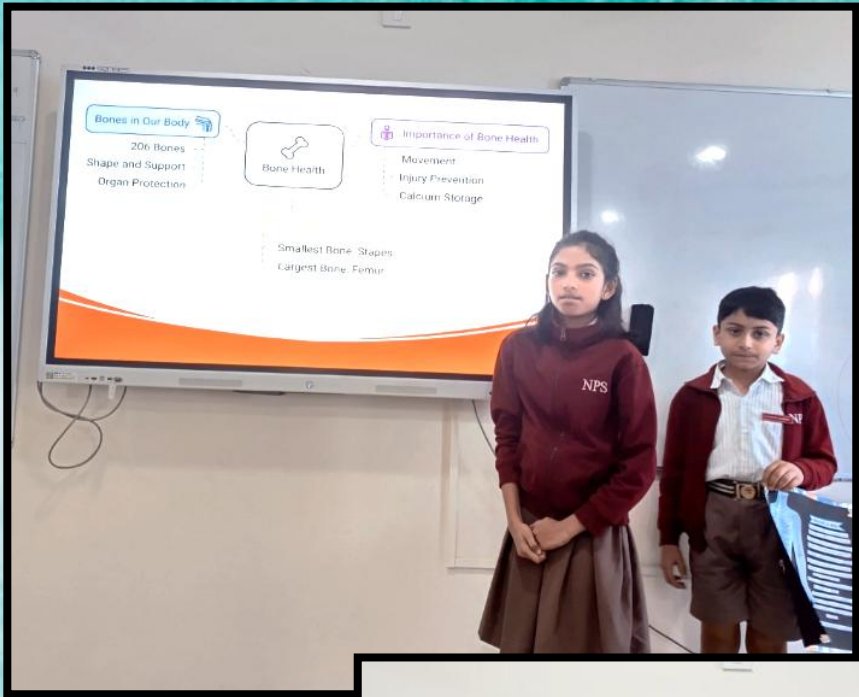

Let's Get Stronger- Joints And Muscles

Students of Grade 5 had a resourceful learning experience by discussing and presenting the topic in groups. They explained the function, types of joints and muscles in the human body. They also shared few facts. Usage of posters, models, PowerPoint presentations to explain the content was much appreciated. It promoted deeper understanding of a topic involving them in the learning process.

Sort It Out Activity

Grade 5 students were involved in a sorting activity wherein they had to sort animal picture cards into vertebrates and invertebrates. It helped students categorize information and identify similarities and differences of the features of different animals. It was a perfect activity to check students' understanding of the content.

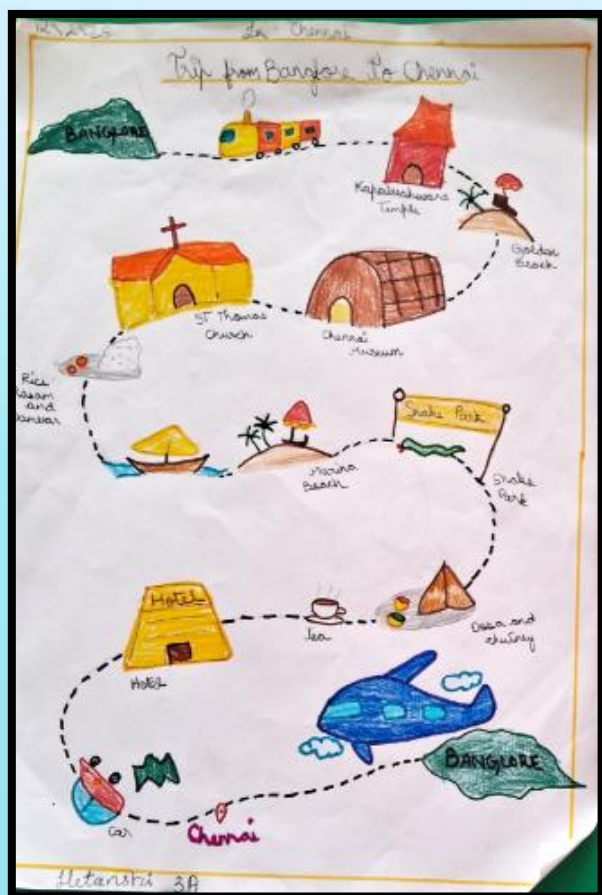

SOCIAL SCIENCE

Poster Making Activity

Poster making allows students to summarize, organize, and explain their learning clearly and engagingly, while also fostering teamwork. Students of Grade 3 enjoyed creating posters about the cities of Kolkata and Chennai. They illustrated tourist attractions, famous landmarks, cuisines, festivals, and cultural aspects of these cities.

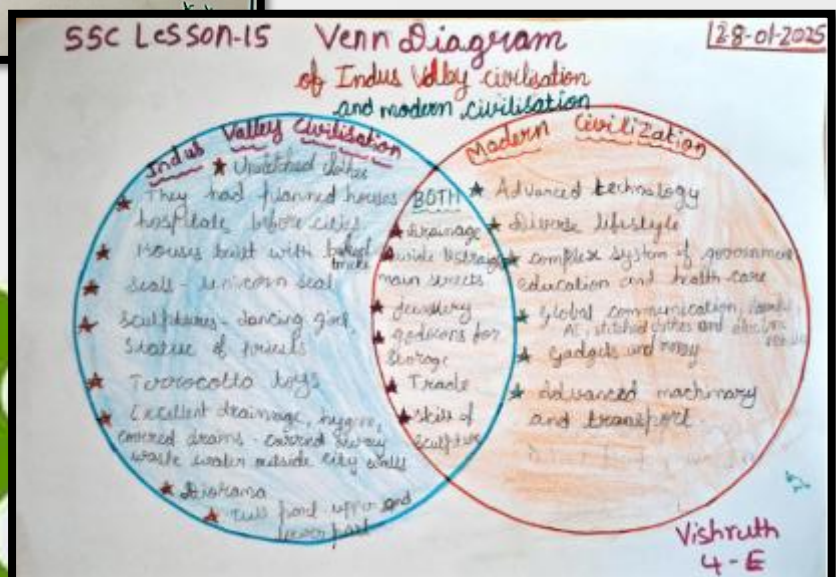

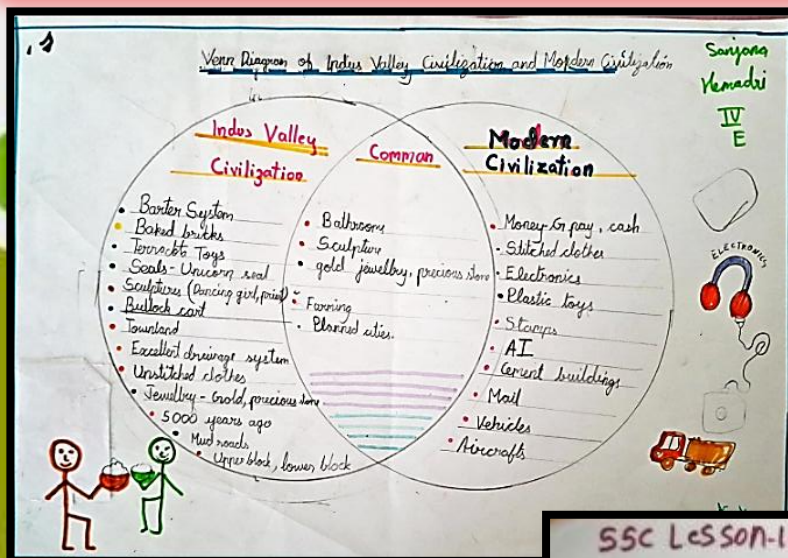

My Environment

Students of Grade 3 discussed the environment and its importance. They illustrated different types of pollution that harm the environment and shared their ideas for preventing it. This activity was an eye-opener, encouraging them to grow up as responsible citizens.

Venn Diagram- Indus Valley Civilization

Students of Grade 4 delved into the intriguing world of the Indus Valley Civilization. As part of their study, they created a Venn diagram to compare this ancient civilization with modern society. This hands-on activity enabled them to identify similarities and differences between the two. By drawing connections between the past and present, they gained a deeper understanding of the impact ancient cultures have had on the world we live in today.

Collage/Foldables- Some Great Kingdoms from our Past

Students of Grade 4 crafted vibrant collages and foldables depicting the great kingdoms from India's past, focusing on both North and South India. They explored the cultures, rulers, and historical contributions of these kingdoms. This creative activity deepened their appreciation for India's rich heritage while allowing them to present their findings in an engaging and interactive manner. The collages and foldables highlighted key historical facts and provided students with a visual means to express their understanding.

FACTS

They were called the Solanki dynasty.
 The Chalukya dynasty was a classical Indian dynasty that ruled large parts of south and central India between the sixth and twelfth centuries. During this period, they ruled as three related yet individual dynasties. The earliest one, known as the Badami Chalukyas, ruled from Vatapi (modern Badami). The Badami Chalukyas began to assert their independence at the decline of Harsha's kingdom of Kanauj and rapidly rose to prominence during the reign of Pulakesin II. They ruled from Vatapi until about the 11th century.

Chhatrapati Shivaji

Chhatrapati Shivaji Maharaj was a great warrior, but he was born in a poor family. He was a simple man. He was a great leader and a great warrior. He was a great leader and a great warrior. He was a great leader and a great warrior.

Shivaji Maharaj was known for his bravery. He was a great warrior and a great leader. He was a great warrior and a great leader. He was a great warrior and a great leader.

Poitharwar
 Chauhan

Poitharwar Chauhan was a great warrior, but he was born in a poor family. He was a simple man. He was a great leader and a great warrior. He was a great leader and a great warrior. He was a great leader and a great warrior.

Maharana Pratap

Maharana Pratap was known for his bravery. He was a great warrior and a great leader. He was a great warrior and a great leader. He was a great warrior and a great leader.

Gwalior fort

Gwalior fort is perched on a huge hill and it looks like a giant. It is a great warrior and a great leader. It is a great warrior and a great leader. It is a great warrior and a great leader.

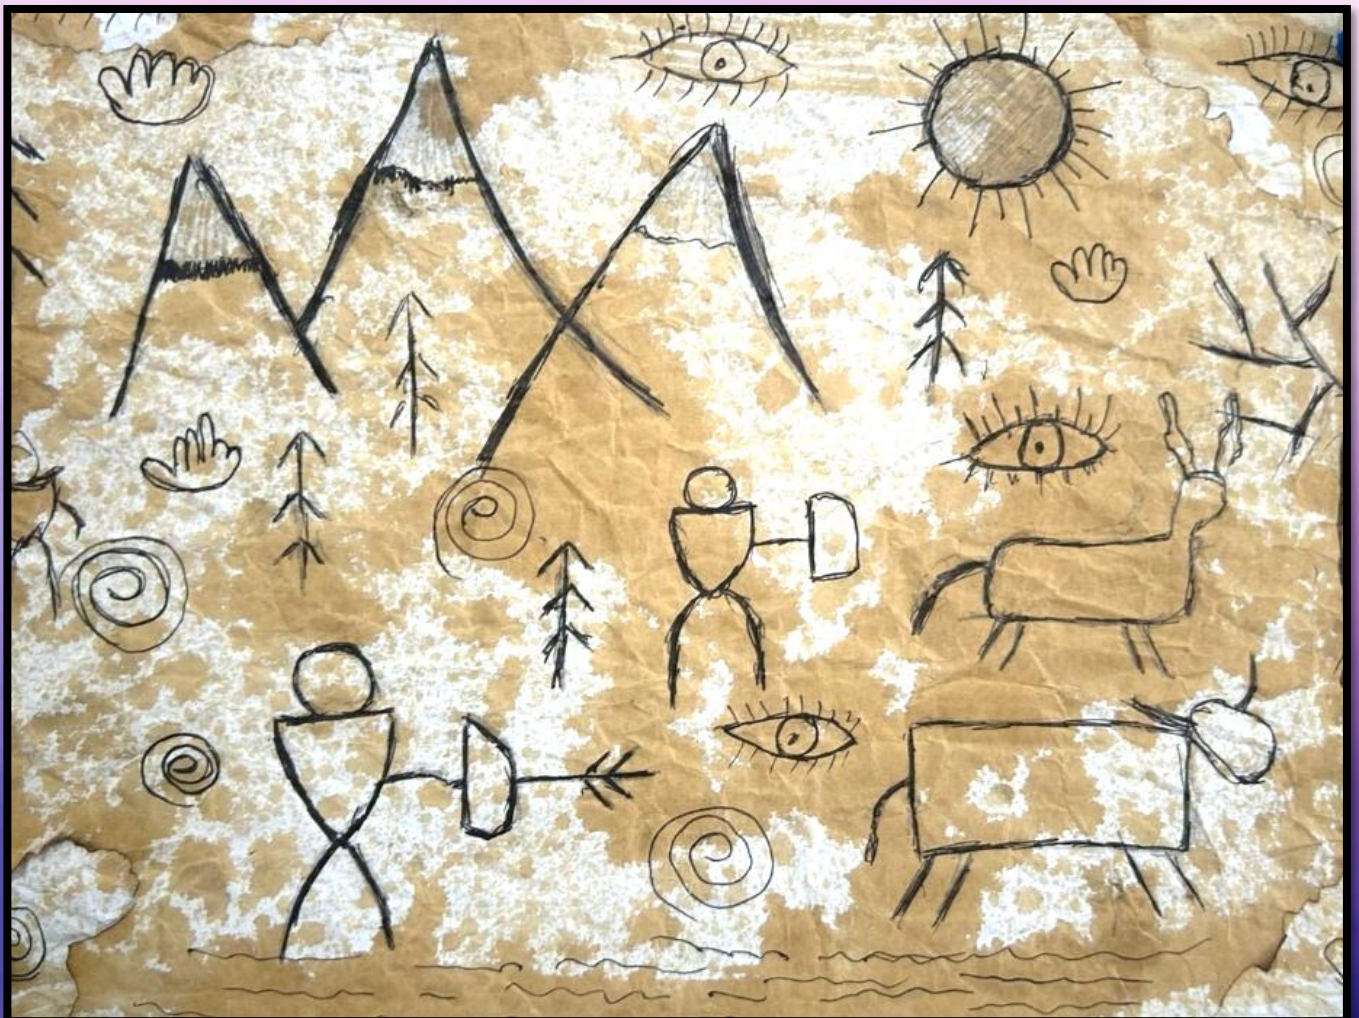

Adil Narayana Temple

The temple is known for its beautiful architecture. It is a great warrior and a great leader. It is a great warrior and a great leader. It is a great warrior and a great leader.

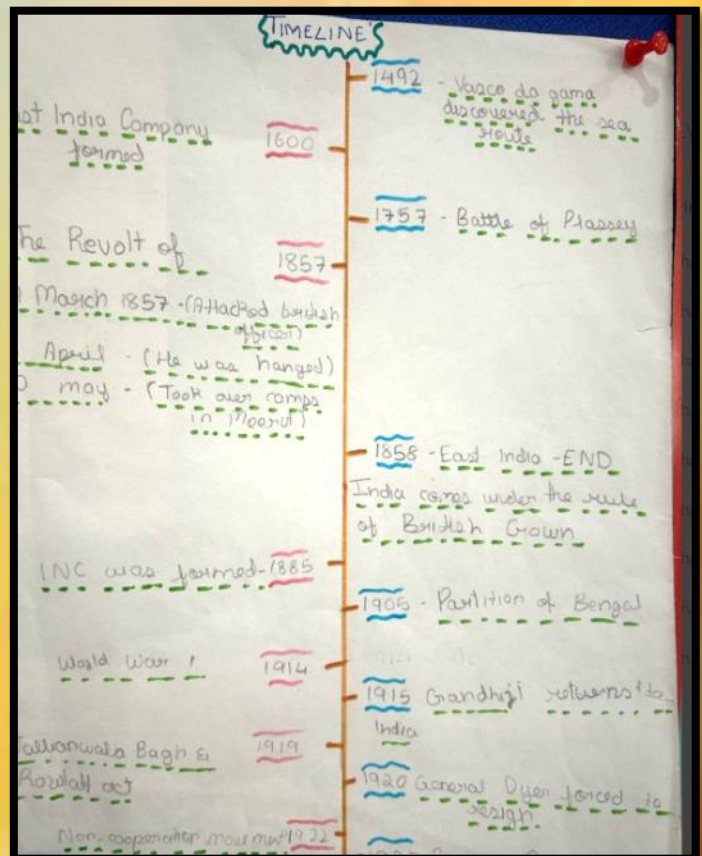

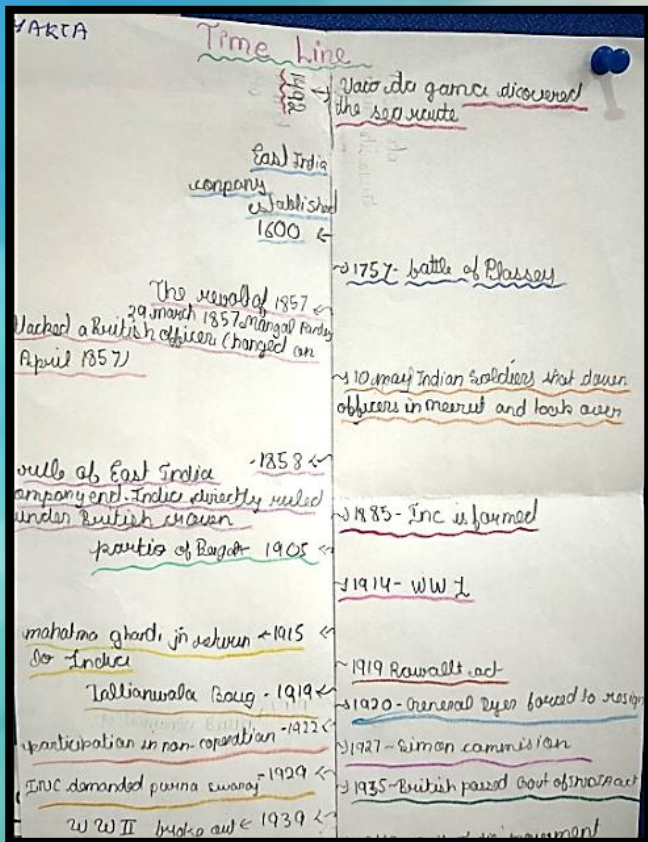

Cave Painting

Students of Grade 5 explored the fascinating world of cave paintings, learning how early humans recorded information through art. As a part of their communication and recording unit, they created their own cave paintings, reflecting stories and ideas just like ancient civilizations. This hands-on activity helped students understand the importance of visual communication in early history.

TimeLine-India's Freedom

Students of Grade 5 created a timeline based on their lessons 'First War of Independence', 'Struggle for Independence', and 'Freedom at Last'. The timeline highlighted key events and figures from India's 1857 revolt, aiding for information retention. This hands-on project made learning about India's journey to freedom engaging and memorable.

Winter Cheers!

This year's winter holidays were the most exciting and thrilling for me. I met my cousins, and we all went to the Water Park, where we experienced 3D animated caterpillar rides, waterfalls, thrilling water slides, and a maze. We also visited a Dam in Tamil Nadu. I enjoyed every moment of my holidays, creating memories that will remain forever.

Passion in Action

I enjoy a variety of activities such as coloring in my book, reading, playing with friends, and cooking with my mom and grandma. Among all these, my favorite pastime is cooking. I love making and eating roasted, crunchy dosas. I assist my grandma in making nippats of various sizes, resembling planets of the galaxy. Once, when my mom looked tired, I surprised her by preparing lemon juice. It is a delight to see the flour being sieved, milk being poured into milk and spices being powdered. My sister and I also love baking cakes for birthdays. To me, cooking is a fun-filled activity.

Our Earth, Our Future

Earth is the only planet in our solar system that supports life. It provides us with essential resources such as water, air, and soil needed for survival. The Earth's climate is mild, but due to the overuse and wastage of resources, our planet is now in danger. Global warming is on the rise, impacting the survival conditions for all living beings. It's our responsibility to protect these resources, as life is not possible on other planets. Let's stop deforestation, reduce pollution, and save our Earth.

Exploring the Unknown

One of the most exciting adventures was when I went on a zip line in Coorg. At first, I felt nervous and scared, so I told my parents how I was feeling. They reassured me by saying they would be with me the whole time. With their support, I decided to try, and I absolutely loved it! The thrill of sliding down the rope, feeling the wind rush by, as I went faster, was unforgettable. It was such a wonderful experience that I wished I could do it again.

Step by step, closer to the clouds -Tiger's Nest

During my last summer vacation, I visited the Tiger's Nest in Bhutan. The only way to reach this stunning destination was by hiking up the steep mountain. Along the way, I met travellers from all over the world. During the hike, I encountered colourful prayer flags, pine trees, and vibrant red Rhododendron flowers. At the top of the cliff, I found a beautiful monastery. I took a break at a cafeteria and enjoyed some refreshing fruit juice. Our local guide, Ms. Sonam, was incredibly helpful throughout the journey. The hike took a total of 6 hours, and while it was challenging, I successfully completed it.

A Special Day

December 25th is a day I'll never forget as it's both my birthday and the day Jesus Christ was born. On this special day, I visited the Visvesvaraya Industrial and Technological Museum. My favourite exhibit was the aeroplane, and I was fascinated by the mirror maze. Later, I went to my grandparents' home and celebrated my birthday with chips and cake. I also visited Dodoma's house and stayed with Chummi akka. Amamma shared stories with me and my brother. It was a wonderful time!

Sharing is Caring

Sharing is a beautiful way to show love and kindness to others. When we share what we have, we make people around us feel happy and special. It can be as simple as sharing a toy, food, time or even helping a friend. When we share, it teaches us to care for others and understand their needs. Remember sharing makes the world a better place; let's all practice sharing because sharing is caring. Start sharing today and see how it makes everyone's day brighter!

Harmony with Nature

Have you ever noticed how beautiful nature is? The green trees, colourful birds and the shining sun makes our world so lovely. Nature gives us fresh air, clean water and yummy fruits. Isn't it amazing? But nature needs our help to stay healthy and happy. Here are a few simple ways by which we can take care of nature. Do not waste water, turn off the tap when not in use. Plant trees as they give us shade, fruits and fresh air. Throw trash in the bin. Keep parks and streets clean. Be kind to animals. Feed birds, keep water for animals. As we care for nature, we can care for ourselves and achieve a lot more.

Wandering into My Dreams

If I could go on any adventure, I would travel to a magical forest! The trees would be so tall that their tops touch the clouds, and vibrant flowers would glow in the dark. Birds would sing enchanting melodies, and friendly animals like talking rabbits and wise owls would guide me. In this magical forest, there would be a sparkling stream with golden fish that could grant wishes. I'd wish for everyone to be happy and healthy. At night, fireflies would illuminate my world, and I would dream about the next adventure.

Cheers to Another Year of Joy!

What makes birthdays so special? They mark the day you entered the world! Each year, this day is a chance to celebrate with family and friends. Birthdays are like a grand welcome party for the next year. The festivities often include cutting a cake, singing happy birthday songs, and enjoying fun moments with your loved ones. Plus, you get thoughtful gifts from those who care about you.

No matter how you choose to celebrate, birthdays are a wonderful time to create cherished memories with the people you love. Happy birthday to you, and happy birthday to everyone! 🎂🎁

Books Recommendation for Parents

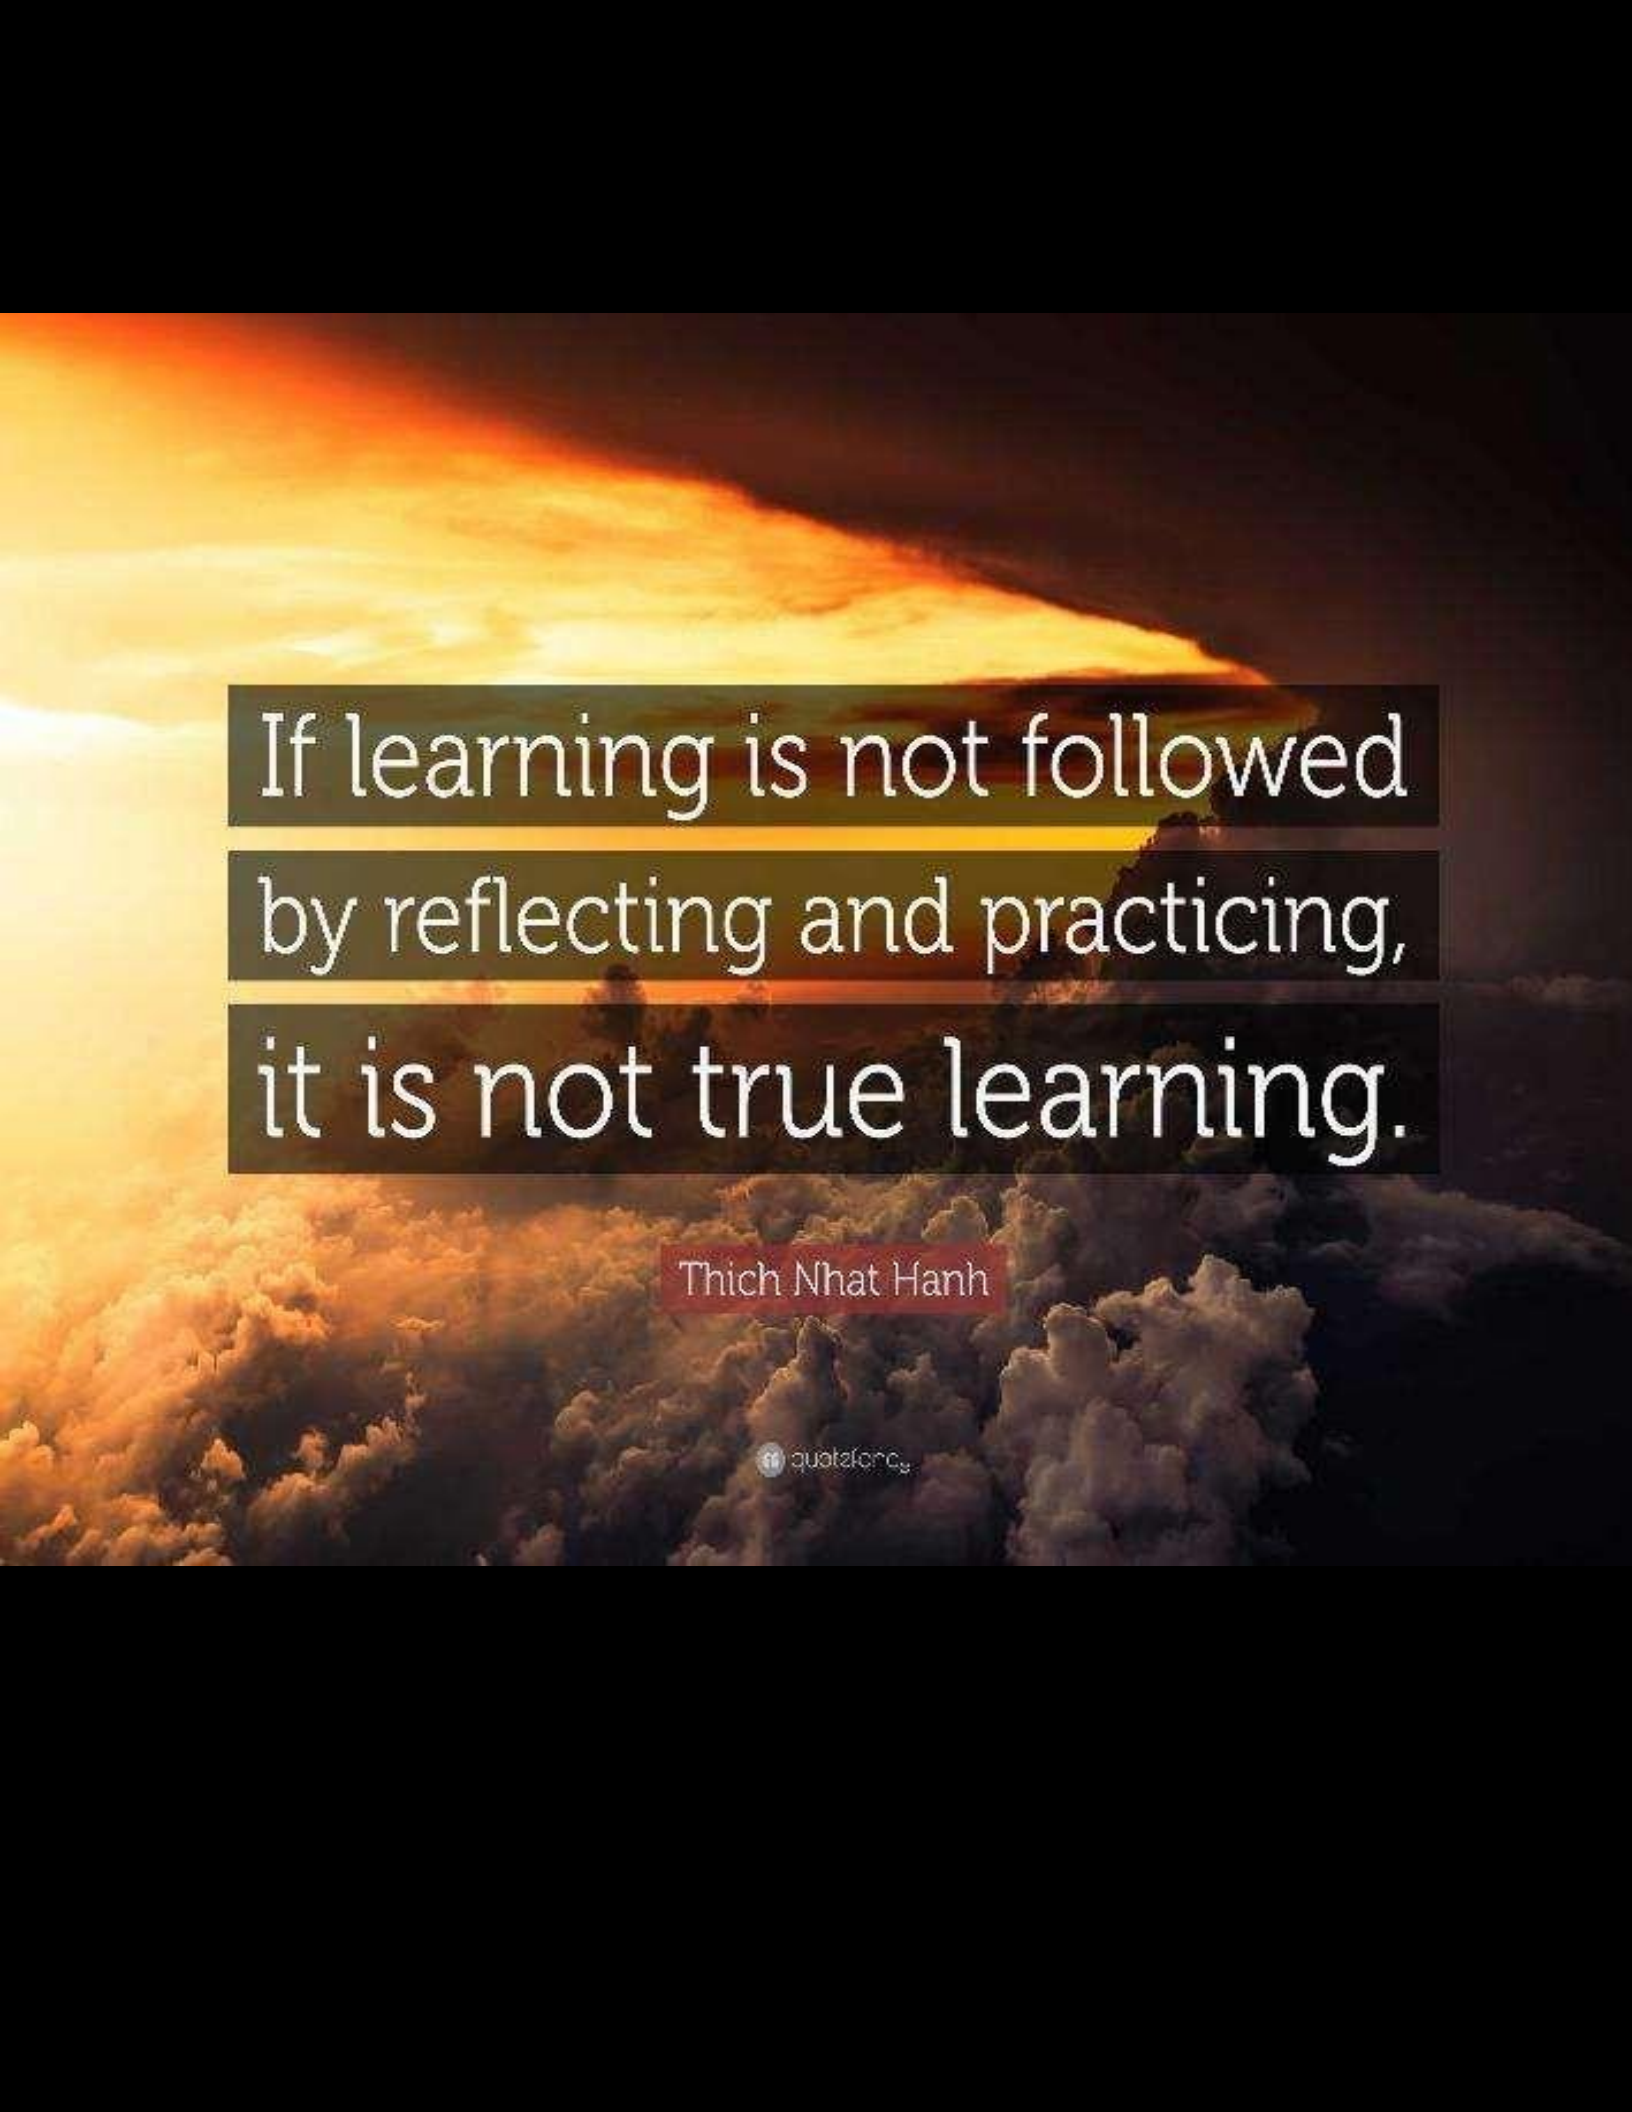

The background of the image is a soft-focus photograph of green leaves and branches, creating a natural and fresh atmosphere. A light gray rectangular box is centered on the page, containing the text.

Dear Parents,

As we come to the close of this academic year, we want to take a moment to express our sincere gratitude for your unwavering support and cooperation.

Please note the academic year commences on Wednesday, 4 June, 2025.

Happy Vacation! Looking forward for another exciting year ahead!

If learning is not followed
by reflecting and practicing,
it is not true learning.

Thich Nhat Hanh
